- CO₂ Inflation System with Aluminum Cylinder
- Water Ballast System
- Water Activated Locator Light
- Sea Anchors
- Bailing Bucket
- Hand Pump
- Boarding Handles & Life Lines
- Canopy & Canopy Mast
- Heavy Duty Polyester Valise

SPECIFICATIONS

AVI Survival Products 8 Person Life Raft conforms to the latest FAA TSO C70a requirement. The life raft has a single tube, dual chamber inflatable design, classified as a Type II Non-Transport category life raft. The 8 Person life raft series is constructed with the latest Urethane coated Nylon Fabric, with a single tube internal bulkhead design that are attached using thermo bonding technology. Welding the fabric together tightly seals the seams together creating two separate chambers.

Each raft includes a stabilizing Water Ballast system, a hand pump, bailing bucket, a sea anchor, secured life-lines on the exterior perimeter of the raft for use of survivors in the water, and an inflation/retaining line that is attached to a high strength patch on the raft to prevent drifting and a water activated locator light. Aluminum cylinders and valves are added to reduce corrosion while packed and in use. The Soft-Pack Valise is made of heavy-duty polyester fabric with secured Velcro closures for a tightly packed raft. These rafts are engineered to reduce overall weight and deliver a compact design for easy transport and storage for any aircraft compartment. AVI life rafts come with a 5-year warranty on parts and labor, built to last a lifetime with proper care.

PART NUMBER	DESCRIPTION	PACK SIZE	WEIGHT
RAF1108-301	8 Person TSO w/ FAR 91 Kit	10" x 15" x 18"	32 lbs
RAF1108-303	8 Person TSO w/ FAR 121 Kit	10" x 15" x 18"	32 lbs
RAF1108-305	8 Person TSO w/ FAR 135 Kit	10" x 15" x 18"	39 lbs
500-12y (T1)	406 MHz ELT Can be added to any raft.	2" x 4" x 6"	1.5 lbs

Required Raft Compartment Size = Add 1-2" to all around life raft dimensions. Raft required weight +/- 2lbs.
