

DATREX Workflow TYPE III/V WORK VEST DX3500UJ

DX3500UJ

TYPE

DATREX WORKFLOW TYPE III/V WORK VEST

USES

For commercial applications where Type V Work Vest is required such as under Subchapter M. Ideal for construction sites over water, law enforcement or any personnel working on or near the water requiring an approved work vest.

FEATURES

- USCG approved Type V Work Vest with Type III swim performance
- Articulating head support is out of the way for comfort and only supports the unconscious wearer's head in water in case of emergency or rescue
- Harness access on back panel to work universally with fall protection harnesses
- Highly visible orange color as required by USCG
- Split foam system with vent that surrounds the front torso more uniformly and feels less bulky
- Contoured and lighter weight foam for freedom of movement and longer life than PVC
- Durable polyethylene foam which is impervious to absorption chemicals and oils
- Mesh liner and back for added breathability and comfort, keeping you cool all day
- Molle to attach accessories
- Designed for minimal snag hazards
- SOLAS grade retro-reflective on front and back for greater visibility
- Adult universal sizing- chest size 30"-52"
- Tough construction and components to meet rigorous USCG requirements
- Vinyl piping on edges of jacket to reduce chafing for added longevity
- Patented design
