

Amigo Returns Policy

If a part is not used within six months after it leaves Amigo, we will accept it back and provide a 100% refund on the **cost** of the part. The original outbound freight will **not** be corrected back, and the customer must send the part back at **their own cost**. The customer must contact Amigo and get a Return Authorization number before sending the part in.

Parts that went through Amigo's customization process are **non-returnable**.

Unit returns are on a case by case basis and depends on how long the customer uses it, what the issue is on why they want to return it, etc.

Returns requests over 180-days after the date of sale will have a 25% restocking fee and may be completely refused depending on whether the part is in production or not.
