

RAVEN

The word "RAVEN" is written in a large, bold, black, sans-serif font. A white diagonal line cuts through the letters from the bottom-left to the top-right.

Step-By-Step Installation Guide

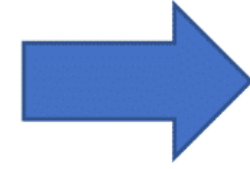

STEP 1:

Assemble Handle Bars onto Handle Bar Stem, placing the Top Cap over the Bar & Tighten with Torx Bolts provided in an "X" Pattern until it's tight and sits flush.

1a.

1b.

STEP 2:

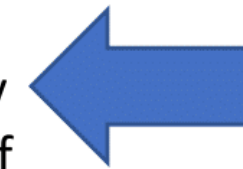

Rotate The Pre-Installed Front Bracket 180° so the 2 Screw Holes are on Top

Connecting Wires

STEP 3:

Locate Power Button (located by the battery compartment). Pull off Power Button and Feed thru Housing shown in next picture

4a.

STEP 4:

a) Disconnect Black Extension Wire (near where Power Button was located) from both ends and connect the Male tip from the Extension Wire to the female end of Power Button as shown in 4b.

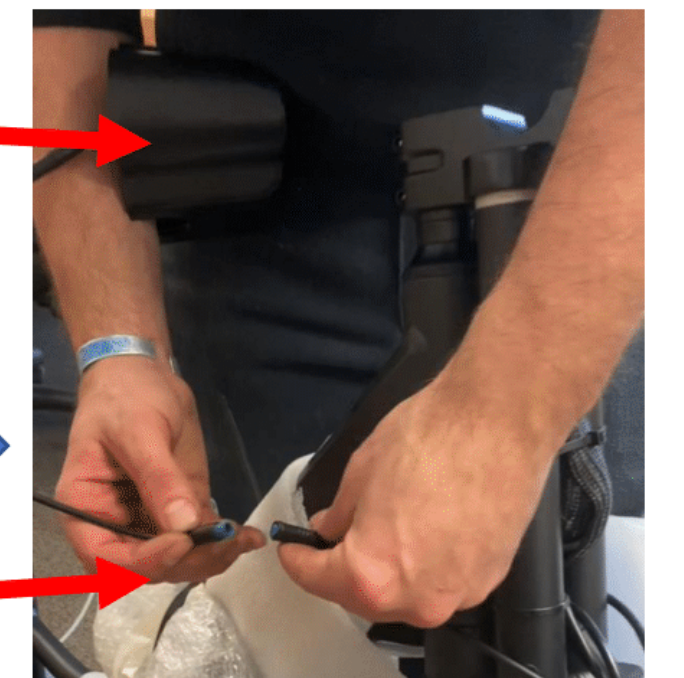

4b.

Housing

STEP 5:

Take Green Female End of the Extension (should be connected to Power Button) and connect with the Green Male end exposed.

STEP 6:

Position Power Button Housing on top of handlebars, and tighten to bracket with housing screws provided.

STEP 7:

Connect both Front & Rear Brakes Wires (RED Female) to (RED Male) Wires under Handlebars

STEP 8a:

Take the Green (Female end) & Blue (Male end) Wire shown below and tuck in to harness/frame...these wires are not needed

STEP 8b:

Repeat the same step tucking away the Red Wire (Female End) and Green Wire (Male End)...above Rear Tire...these two wires are not needed

INSTALLING PEDALS

STEP 9:

Screw-in Right-Side Pedal Clockwise...and Left-Side Pedal Counter-Clockwise

INSTALLING BELL & HANDLE BAR GRIPS

Step 10:

Slide Bell onto Left Handle Bar & then Slide on Grip. Slide Grip on Right Handle Bar

STEP 11:

Insert Charged Battery using Key to unlock compartment. Press Power Button (LCD Display will turn-on...) and Enjoy!
