

Model: MGH

# Horizontal Mezzanine Gate

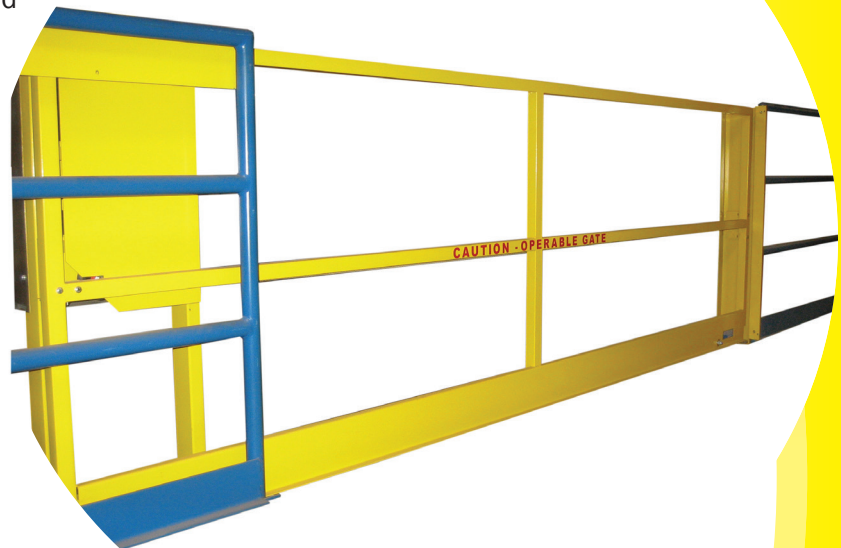

Authorized Distributor

The PS DOORS Horizontal Mezzanine Gate is designed to be durable, productive and provide the same protection as your safety railing systems.

Once installed on your mezzanine, this durable gate opens and closes as needed. Open the gate to easily forklift materials to your elevated space and close the gate to protect employees from dangerous and costly workplace falls.

Mezzanine Gates open by manual or automated operation. Activate your gate with the push of a button or by the pull of a cord. Once material has been delivered to your mezzanine, the gate closes by timer or other activation device to quickly protect the mezzanine edge.

PS DOORS' Mezzanine Gates are designed to meet federal OSHA safety railing requirements. Take workplace safety seriously and invest in PS DOORS' fall protection systems.

## Standard Features:
