

What is needed for an Order from Dakota Safety

We wanted to let you know what we will need from you if you wish to proceed with an order from Dakota Safety.

We would either need a signed and dated copy of the quote we worked up and sent to you, or a purchase order if you use them based off our quote. If there are options on the quote for up charges for certain finishes, or optional items, we will need to know if you want to include those in your order.

If you would like us to invoice you, we would need our credit application completed. You can find that in our resources and supporting documents page. If you have a standard reference form, that will work for the main information. With the credit reference form, we would just need the bottom of the first page, and second page of our credit app completed.

Otherwise we do accept credit cards with a 3% convenience fee added to the total, or if you wish to pay by check, we could ship the items once the check has been received at our office and clears.

We would also need the exact address that the order will be delivered you. We would also need the name and number of someone that the freight company can reach if the truck driver has questions on the delivery.

Please let us know if you have any questions on any of these items.

We look forward to working with you on your project.
