1 WEEK LEAD TIME

AUTO-FLASH

Our Auto-Flash™ heater, with adjustable bracket, fits neatly into today's automatic presses*. Each model may be inserted at any print head. The bracket will fit easily onto the floodbar and will shuttle in/out over the platen as the floodbar moves. Lightweight, these units are gentle on your press and easily moved. Every unit has a built in heat control with leveling and height adjustments. Contact us for more details.

BLACK FLASH ROTATORS

Flash-A-Matic™

Transform any Black Flash® dryer into a foot-pedaled automatic. The easily adjusted dwell timer (0 sec - 10 min) provides "Hands-free" repeatability from up to 15ft away. This unit has an automatic and a manual mode.

Model No	Volts	Amps	Plug Type	Shipping Weight	Price
BFA-009FS	120	2.02	NEMA 5-15P	40 lbs.	\$899.00

Flash Pneumatic™

These two models are pneumatically actuated rotators for your BBC flash heater. Model FPM-014FS is manually operated with a foot pedal. Model FPA-014FS operates exactly like the BFA-009FS and rotates your BBC flash heater automatically with the help of a dwell timer. Both models attach to any BBC flash stand.

FPM-014FS	--		Compressed Air 30-100 PSI	\$450.00
FPA-014FS	120		Compressed Air 30-100 PSI	\$650.00

Platen Guard™

The Platen Guard™ is an ideal addition to any BBC flash dryer. Featuring a photo-eye which detects when your flash is in the cure position. Once curing is detected the Platen Guard™ starts its 60 second countdown. If your flash is still in the curing position after 60 seconds, the Platen Guard™ steps in and shuts down power to your flash while sounding an audible alarm to alert the user. In doing this, the Platen Guard™ lives up to its name by keeping your platens safe and usable.

The Aeolus is the next generation of Forced Air Conveyor Dryer. Using BBC's proprietary heating elements there is nothing that BBC Aeolus dryer can't cure. From plastisol to pretreat, and everything in between, the Aeolus out shines the competition. The Aeolus's revolutionary design uses banks of angled heating panels running along the edge of the PTFE coated belt to all but eliminate edge loss. Its unique design, partnered with BBC's proprietary watt density algorithm, provides the Aeolus with the most even edge-to-edge cure in its class.

Model No	AEOLUS

CONVEYOR DRYER HEATERS - NL SERIES

A BBC® Heater can be inserted into many OEM conveyor dryers. The end caps on the NL design are folded over flanges (see detail A). This hanging method is popular with some OEM conveyor designs. This model has high temperature lead wires exiting the back (see chart for number of leads) for connections to existing terminals.

Digi-Dri™

A maneuverable dryer for printing faster with your large format printer. Ideal for immediately curing and outgassing solvent inks. Don't waste 24-48 hours waiting for your ink to dry. You can go straight to lamination. The Digi-Dri™ comes in 6 different sizes and is safe for all inks and substrates. All models include a heat control. A second dryer head is useful for those printing at speeds greater than 200 ft/hr. CE Available, Please contact our office.

Note: 220V units do NOT include a plug.
