

ER-650C

Emulsion Remover Concentrate

Product Description:

DO NOT USE STRAIGHT!

ER-650C is a biodegradable and odorless, low foaming, sprayable liquid emulsion remover concentrate for all types of stencil systems. *This product is to be diluted up to 30 parts water to 1 part ER-650C or higher depending on emulsion type and thickness for best economy.*

ER-650C complies with all SQAC regulations and does not contain any SARA 313 reportable products.

When this product is used emulsion and diazo staining are greatly reduced!

Directions:

Mix ER-650C as per instructions, remove ink using an Image Technology ink wash, Apply ER-650C to both sides of wet screen using a brush, chemical spray system or spray bottle and scrub with a soft bristle brush.

Pressure wash screen and follow with a low volume rinse. If you are using capillary films this product will produce a sheeting action.

Contains a wetting agent!

These directions are supplemental and are to be used in conjunction with the appropriate MSDS sheet for this product.
