Better Performance. More Profit.

How do you reinvent the dye-sublimation transfer printer? You start by specially designing, from the ground up, every component to work together as one system - from the print head and ink technology, to the printer engine and software. The result? A high-performance dye-sublimation transfer printer designed with extreme reliability for true industrial-level production.

Introducing the all-new Epson SureColor® F7200.

The SureColor F7200 is ideal for fast, economical short- to-medium volume dye-sublimation transfer printing, at speeds up to 634 square feet per hour and widths up to 64-inches. Developed using the latest advancements in performance imaging, this innovative system includes our exclusive PrecisionCore™ TFP® print head, an integrated roll-to-roll media support system with high accuracy winding, and our latest dye-sublimation ink technology - Epson UltraChrome® DS with High Density Black.

Overview

SureColor F-Series

Rewards

With the purchase of qualifying Epson ink and paper, you can earn and accumulate valuable points, which you can redeem for rewards, such as extended warranties or discounts on the purchase of your next SureColor® F-Series printer.

Engineered from the ground up for Dye-Sublimation industrial textile, true roll-to-roll manufacturing, designed to run all day, every day, the Epson SureColor F7200 offers a range of features, including:

Printer Overview

- New after heater platen reduces ink drying times for true roll-to-roll productivity

- New built-in take up reel for accurate roll-to-roll media handling
- Revolutionary Epson PrecisionCore TFP print head designed to work exclusively with Epson UltraChrome DS inks (will not function with other ink systems)
- Photographic print quality with resolution up to 1440 x 720 dpi
- Outstanding everyday production speeds up to 325 ft² per hour
- High Reliability - Developed to Run 24/7
- Includes textile imaging workflow software by Wasatch®
- Optimized for rotary heat transfer press applications
- One year limited on-site warranty with product registration (warranty coverage is lost if any non-Epson ink system is used)

Epson UltraChrome DS Ink Technology

- High-Capacity refillable ink tanks hold 1.5 liters per color
- Designed to work exclusively with SureColor F-Series printers
- Four color - featuring a High Density Black ink formulation
- Vibrant colors, neutral blacks, sharp contours, and smooth gradations
- Extremely fast drying times
- New ink refill packs reduce total cost of ownership

High-Performance PrecisionCore TFP Print Head

- Efficient, precise and repeatable performance and excellent image quality
- Low vibration meniscus control for highly accurate dot shape and placement
- One-inch wide print head with 720 nozzles per color
- Ink repelling coating technology for reduced print head maintenance
- Optimized specifically for dye-sublimation inks improving the print head life

SURECOLOR F7200 RIP INFORMATION ►

What's In The Box:

- SureColor F7200 Printer
- Epson Genuine Ink Supply System
- Media Support System & Take-up Reel
- Wasatch SoftRIP TX
- Initial Ink Pack - Set of 4 - 1000mL ink packs
- Waste Ink Bottle
- User Guide Kit
- AC Power Cables
