

GR-750C & GR-750CX

Haze Remover Paste

Product Description:

GR750C and GR750CX is a biodegradable and low odor mild caustic haze remover paste that removes all types of stubborn ink and emulsion stains from mesh. *These products also contain a degreaser and wetting agent for the application of capillary films.*

Both products complies with all SCAQM regulations and does not contain any SARA 313 reportable products.

Directions:

Stir product, apply to both sides of wet screen, scrub, and allow to set between 4-15 minutes depending on mesh count. (Higher mesh counts less time).

Power wash out screen (must have power washer) then rinse with clean water, if you are using films, this product will produce a sheeting action for applying films.

Contains a degreaser!

These directions are supplemental and are to be used in conjunction with the appropriate MSDS sheet for this product.
