## **DTG/WATER BASED INFRARED DRYERS**

- Low wattage, highly efficient for customers with limited amperage
- Advanced technology speeds curing of inkjet, water-based, and discharge inks.
- Powered exhaust system to remove fumes/moisture within chamber
- Excellent air flow to cool the skin of the dryer
- Fully expandable to add additional chambers for increased productivity

## **Draws ONLY 22 amps!**

**Lo-E** series dryers have a dual zone heat control, with a boost zone to quickly reach cure temperature. This makes it GREAT for inkjet curing!

## Features

**HEAVY DUTY** "X-Series" Conveyor Belt Roller Tracking System with Teflon

coated fiberglass belt and HD belt motor

**ACCURATE** Dual digital PID Temperature controller is accurate to +/-1°F

**ADJUSTABLE** 3" - 7" (7.6 - 17.7 cm) belt-to-heater clearance,

o 1 (1.0 11.1 cm) belt to fleater deardines,

adjustable separately on each side for each heater **EXHAUST** High powered exhaust to remove fumes and moisture

**CONSISTENT** Precision DC belt speed control w/ digital display **EXPANDABLE** Add additional heat chambers and conveyor extensions

**EFFICIENT** Draws only 22 amps for highly efficient curing

## Options

- Additional chambers can be added as well as belt extensions
- Locking casters for easy mobility
- Donut Probe
- UL and ULc Certified
- · Conveyor Air Bar

<sup>\*</sup> Production speeds are estimates are based on 16" centers and will vary depending on ink manufacturer, humidity of shop, and other variables.
