

MUTOH

VERTELITH™ GENUINE RIP SOFTWARE

MADE FOR

PROFESSIONALS

VerteLith™, MUTOH's new genuine RIP software is easy to use and designed to optimize the output of MUTOH brand printers. It's bundled with FlexiDESIGNER MUTOH Edition 21 software, a \$2,199.00 value, and includes advanced functions such as MUTOH Clear Tone, an original half-tone technology which achieves beautiful image quality and smoothness. VerteLith also features two enhanced preview functions. A soft proof function simulates the color of the printed output on the screen and the RIP preview function displays the actual printing dots on the screen prior to output. These new features allow users to enjoy a "what you see is what you get" RIP environment. In addition to auto-generation of PANTONE® coated/uncoated spot colors, VerteLith includes various tools and functions to create rich, textured prints without complicated steps.

VerteLith is available with select MUTOH printer models.

MUTOH GENUINE RIP SOFTWARE

RIP Preview - preview the actual placement of the printing dots on-screen prior to output.

Soft Proof - simulate the color of the printed image on-screen prior to output.

Automated Layout Processing and Printing with a Multi-Page PDF File - Multi-page PDF automates complex tasks. Print and layout settings can also be set.

VerteLith automatically generates CMYK, white and varnish spot color information into separate layers for output.
