

E-COMMERCE WEB DEVELOPER (M/F/D)

At [Lyght Living](https://lyght-living.com), we transform the way people furnish their homes. For everyone who stays in one place for a limited time or just does not want to commit to owning furniture.

Our team is further growing, and we are looking for our first tech hire. The ideal candidate is passionate about problem-solving and coding, highly flexible and eager to work in a startup environment.

Key facts:

- Fulltime
- Location: Berlin
- Start date: 1.5.2020

Responsibilities

- Work with our designer and develop new features to improve user experience
- Solve technical problems (develop and evaluate alternative solutions)
- Help to define strategic vision and a tech roadmap
- Initiate architecture discussions
- Document architecture for others to work with
- Assist with marketing efforts by building cutting edge landing pages
- Find innovative ways, keep up to date with tools and best practices

Requirements

- Minimum of 3 years experience in software development
- Flexible with frontend technologies (JS, jQuery, React, CSS, HTML)
- Experience with Shopify is a big plus
- Experience with backend technologies is a big plus
- Ability to use diverse prototyping tools (e.g. Zeplin, Invision, Behance, Marvel)
- Driven and proactive doer who finds solutions not problems
- Analytical and technical mindset
- Flexible and adaptable self-learner with entrepreneurial mindset
- Passionate about coding and problem-solving

What we offer

- A workplace run on trust, empowerment and feedback
- Flexible, trust-based working hours
- Choose your own tech working environment
- A high degree of autonomy
- A casual startup environment in the heart of Berlin
- Perks like team events, free drinks, fruits and more
- A competitive salary and virtual share option program
