Wireless Stereo Earbuds - In-Ear Design

**Quick Connect**

**To Connect** - Soundlates are pre-paired to each other, the RIGHT earbud has been given default primary settings.

**First** - Press and hold the multifunction button on both earbuds until you hear a prompt to “Power On”. You will then hear the prompt “Pairing”. You will hear 2 chimes indicating both earbuds are ready to pair.

**Second** - Select “Tzumi Soundmates” from your device’s Bluetooth display list.

**Third** - You will hear “Device Connected”, indicating that your Soundmates are now ready to use!

**HMM... Soundmates Not Pairing to Each Other?**

If your Soundmates aren’t pairing to each other, they will need to be reset. Press and hold the multifunction button on both earbuds until the LEDs flash RED and BLUE alternately. Choose an earbud to designate as the primary and press its button TWICE. That earbud’s LED will flash and the other LED will remain steady. You’re good to go.

**Earbud Functions**

- **Next Song** Press 1x
- **Microphone**
- **300 mAh Portable Charging Case**

**Power on** Press L & R Buttons Simultaneously
**Power off** Press & Hold Either L or R Button
**Play** Press 1x
**Pause** Press 1x
**Answer** Press 1x
**Redirect** Press 2x
**End Call** Press 1x

**Bluetooth Pairing Instructions**

Make sure the Bluetooth function is available on your device. Specific pairing procedures will be different depending on different smart devices. For detailed information, please refer to your device’s User Guide.

If no Bluetooth connection is made within 5 minutes of the earbuds turning on, the earbuds will automatically be switched off to save power. After a successful pairing, devices will memorize each other. Therefore, no pairing will be needed next time you connect.

1. Keep the distance between the device and your SOUNDATES within 3 feet (for pairing only).
2. Press and hold the multifunction button on both earbuds until you hear the prompt “Power On”.

You will then hear the prompt “Pairing”. You will hear 2 beeps to indicate both earbuds are ready for pairing.

3. Activate the Bluetooth function of the pairing device and select “Tzumi Soundmates” from the device list displayed.

4. You will hear “Device Connected”. Your earbuds are now paired.

**Charge Soundmates & Case**

Place SOUNDATES into the case, they will charge automatically by way of the magnetic base. The LED will turn solid red while charging. Once fully charged, the LED will turn off. Plug the Micro-USB cable into the bottom of the case to charge it. The LEDs will blink red while charging, and turn solid red when charging is complete.

**Important Safeguards**

Do not use Soundmates for anything other than its intended use. Keep the unit away from heat source, direct sunlight, humidity, water or any other liquid.

- Do not immerse the device in extremely high or low temperatures, as it may damage the battery.

Capacity: 300 mAh

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device must not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC interference statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CE marking statement: The equipment complies with the essential requirements and other relevant provisions of the European Union's R&TTE Directive 1999/5/EC.
