## LMM Rectangular without radius

### Material properties

Polycarbonate (PC) |

### Adhesive properties

468, 5016 SK adhesive film with adhesive, SKS adhesive film with foam adhesive

### Thermal properties

Temperature / temperature range -40 °C – 130 °C

### Fire properties

Fire classification V0

### Technical information

Halogen-free

### General technical data

Single-line and multi-line labelling

### Assembly method

Adhesive system

### Labelling technology

Laser devices

All details given in our sales brochures and catalogues, as well as the information available online, are based on our current knowledge of the products described. The electronic data and files made available by Murrplastik, particularly CAD files are based on our current knowledge of the product described. A legally binding assurance of certain properties or the suitability for a certain purpose can not be determined from this information. All information with respect to the chemical and physical properties of Murrplastik products, as well as application advice given verbally, in writing or by tests, is given to the best of our knowledge. They do not release the buyer from the obligation to carry out his own tests and trials in order to determine the concrete suitability of the products for the intended purpose. Murrplastik accepts no responsibility for the available information being up-to-date, correct or complete. Neither do we accept responsibility for the quality of this information. Murrplastik accepts no liability for damage caused as a result of using our products.
