

Retraction system set

Product information

The retraction system serves as a simple, space-saving alternative to the Murrplastik R-Tec Box-S and creates a length compensation of 150 mm. The system is very suitable for small robots, such as FANUC M20iA or KUKA KR6/KR10.

As long as the hole pattern fits, the retraction system can be mounted directly on the robot or attached with spacer sleeves. If the hole pattern does not match, an additional adapter plate will be necessary for the installation.

Color: Black
A mm: 290
B mm: 72.5
C mm: 70
Stroke mm: 150
PU pcs.: 1

Retraction system set

Material properties

mod. polyamide PA 6Alu-
miniumSteel

Fire properties

Fire classification acc. to
UL94: V0

Conformity

RoHS (EC Directive
2011/65/EU)

General information

Made in Germany

Technical information

Halogen-free

Approvals and operating permits

ROBI approval
