

Typ KE

Product information

The KE wire insertion tool is made of specially modified polyamide. It facilitates the subsequent insertion of cables into slotted and split cable protection conduits and features the following advantages:

- Very easy handling
- Fast insertion of cables
- No unnecessary deformation of the conduit

Article: KE
Order No.: 83729010
Color: Red
Max. Ø cable mm: 22
Max. conduit size: M50 / P48
PU pcs.: 1
