

Type m-seal EMC (EMV)

Product information

With the m-seal EMC (EMV) cable fittings, simple radial and axial movement of the cable are possible, even at contact location. The contact finger surfaces with rounded edges prevent damage to the conductor. In addition, the large surface on the contact finger makes low contact resistance possible, even on loosely woven cables (the contact area does not press into the conductor).

The m-seal EMC (EMV) cable fitting features the following advantages:

- Large seal and clamping area
- · With integrated strain relief
- High protection class IP 68
- High contract rating, even at vibration conditions
- Very simple and rapid assembly without tools
- Suitable for the highest requirements of today's technology
- Very good shielding attenuation

Color: Silver UV: 1

Type m-seal EMC (EMV)

Material properties

Brass nickel-platedNeoprene (CR)

Thermal properties

Temperature / temperature range -40 °C - 100 °C short termshort term: 150 °C

Protection class

Protection class IP68

Fire properties

Fire classification acc. to UL94: V2 self-extinguishing

Technical information

Halogen-free

Conformity

RoHS (EC Directive 2011/65/EU)

Approvals and operating permits

cULus approval

cURus approval

VDE approval

General technical data

Strain relief according to **DIN EN 50262**

All details given in our sales brochures and catalogues, as well as the information available online, are based on our current knowledge of the products described. The electronic data and files made available by Murrplastik, particularly CAD files are based on our current knowledge of the product described.
