

BPS Series (10 - 13 kN) Single Direction Vibratory Plates

**WACKER
NEUSON**
all it takes!

Just right - Excellent handling

The BPS series is distinguished by its outstanding guiding characteristics. Moving and turning these vibratory plates on soil and fresh asphalt is extremely convenient and leaves behind no imprints. Even clean finishes at curbs are easy to produce due to the square side profile of the base plate. The guide handle responds precisely to steering movements while still achieving low hand-arm vibrations of less than 5 m/s², which makes long and comfortable working conditions possible.

- Outstanding guiding characteristics: Whether on asphalt or soil - the APS can be maneuvered effortlessly and delivers flawless surfaces.
- Easy transport: A large lifting eye and wide, ergonomically designed carrying handles make moving and loading the machine easy and convenient.
- Maintenance-free: The BPS series is equipped with an extremely sturdy V-belt and features bearings with lifelong lubrication. This makes it practically maintenance-free.
- Accessories: wheel set and paving pad round off the application areas of the BPS.
