

Maximum power

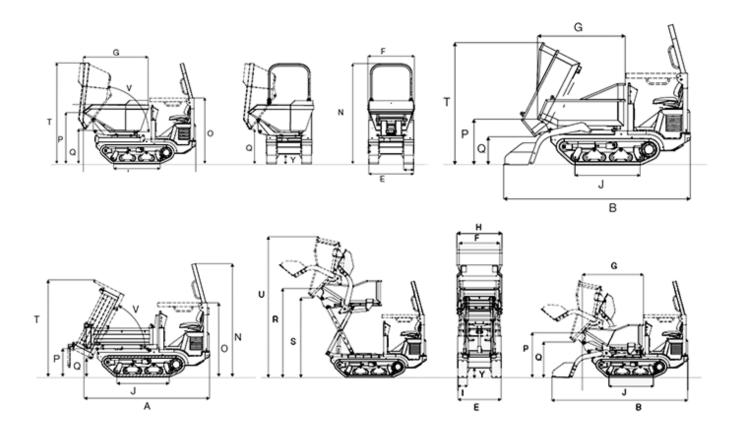

The track dumper DT15 is the ideal transporter on all types of soil, such as gravel or sand, as well as boggy or hilly terrain. The one-piece engine hatch and optimal configuration of the service points make daily maintenance easy.

- The hydrostatic drive enables easy and comfortable operation.
- Folding ROPS roll bar for passageways with low-headroom.
- Low center of gravity for increased stability and guaranteed gradeability up to 62%.
- Auxiliary hydraulics as standard for additional attachments, such as concrete mixers, breakers etc.
- A variety of robust and stable hydraulic tipping skips and other attachments are available, for instance a fronttipping skip, a high-tipping skip, a 3-way side-tipping platform or a hydraulic high-volume concrete mixer.
