## Smart Features

### Call Function

- To enable calling on Everest, connect to your phone's bluetooth, you can dial the phone number according to the need;
- Long press 7 and 9 for two seconds on the keypad to enter \* and #.

### Contacts Storing and Syncing

- Open the CB Smartfit App.
- Go to device section and open Bluetooth call with Watch.
- Press on Sync Contacts.
- Select the contacts you want, you can store upto 70 contacts on the watch.

### Voice Assistant

This function requires a Bluetooth connection to your phone, and you can activate the phone's Voice Assistant by tapping on the screen.

### Data

Displays the data of steps, distance and calories. You can set the target number of steps, distance and calories in the APP and also by swiping right on the watch.

## **Call History**

This function will save the latest call records on your smart watch.

## **Sports: Training**

Includes running, walking, badminton, tennis, basketball, table tennis, cycling, yoga, rope skipping, mountain climbing, indoor running, elliptical machine, rowing machine, lazy bike, exercise bike, baseball, rugby, cricket, strength training, etc.

## **Heart Rate Monitor**

The Smart Watch can record your heart rate all day. You also swipe right on the home screen to start measuring heart rate.

## **Sleep**

Displays the sleep monitoring status of the day, and the data is updated every day. When connected to the APP, the data will be saved synchronously.

## **Blood Oxygen**

When entering the blood oxygen measurement interface, the red light at the bottom will start measuring and there will be a vibration reminder when the measurement is completed in about 40 seconds.

## **Weather**

Weather app will display the weather forecast of current day and the whole week data will be displayed. Weather information will be displayed only if the smart- watch is connected to your smartphone.

## **Music**

After connecting to the watch, you can control the music play on your mobile phone, using watch.

## **Alarm Clock**

After connecting the watch to the APP, you can set a single alarm clock and a multiple alarm clocks.

## **Stop Watch**

Click on the start button on the stopwatch to start the timer and stop button to stop the timer. You can even pause, reset or pin the laps.

## **Timer**

The system presets the common time duration. You can click the corresponding duration to time quickly or click the custom button to set the time. Click the Start button to start the timer, click the pause button to pause the time and click the reset button to reset the timer to zero.

## Always-on display

After this function is enabled, the time will be displayed on the off screen , and the watch will increase the power consumption. Please use it according to your own needs.

- To turn on- go to watch faces and theme
- press on Always On Display
- Choose the AOD Style

## Tool Box

Find the useful tools such as Stopwatch, Timer, Flashlight, Find Phone, Remote camera and Calculator.

## Charging Guidelines

- Use only 10W adapters for charging your smart watch.
- We recommend not using high-power mobile adapters (beyond 10W), as this may lead to charger faults.
- Using adapters with higher power ratings can result in malfunctions and reduce the lifespan of device and your chargers.
- Users can contact customer support for any further assistance or clarification on concerns related to charging and power adapters.
