Download 'Da Fit' App from the Playstore or App
store

- To attach the straps, slide the pin (the side opposite to the quick-release lever) into the notch on the watch. Attach the strap with the clasp to the top of the watch.

- While pressing the quick-release lever inward, slide the other end of the strap into place.

- When both ends of the pin are inserted, release the quick-release lever.

- To remove the straps, turn over the watch and find the quick-release lever.
- While pressing the quick-release lever inward, gently pull the strap away from the watch to release it.

- Charge the smartwatch before using it
- Full charge in less than 90 mins
- Connect the back of the watch to the magnetic charging pin available in the box
- Please use a 5V charging adapter or connect USB with the laptop

  Note: Do not use any fast/dash charging adapters

CB-GRIT & GRIT-AUDIO

Note:

- All notifications, alerts, reminder and data received from phone to watch or vice versa will be connected over CB-GRIT.

Disclaimer

- Optical sensors present on the back of the smartwatch are used to track the health vitals, do not rely on them for medical purposes.

- Crossbeats will not be responsible for in-app purchases made via Da Fit app.

- Crossbeats does not save your personal data and is not responsible for any data stored on Da Fit app.

- Battery life may vary depending on usage patterns.

- The watch charging time might slightly vary depending on how much battery percentage has been depleted and the voltage supply for a charge.

- To receive notifications, calls and other alerts ensure your data and Bluetooth connections are stable.

- Our smartwatches are waterproof and are not suitable for diving. Also using them in the shower with harsh chemicals can damage the watch.

- Use the smartwatch with appropriate apps to achieve the best results.

CHARGING GUIDELINES

- Use only 10W adapters for charging your smart watch.
- Caution against using high-power mobile adapters (beyond 10W), as this may lead to charger faults.
- Using adapters with higher power ratings can result in malfunctions and reduce the lifespan of device and your chargers.
- Users can contact customer support for any further assistance or clarification on concerns related to charging and power adapters.
