OUR FAVORITE
SHADES OF BLUE

Mod teak chaises are outfitted with palm-hued Sunbrella fabric. Left: The home's only shower is off the side of the house, with a rough-sawn cedar fence for privacy. Above: The new open pavilion doubles as extra sleeping quarters. Mosquito screens pull down from the eaves, and built-in seating can be used as bunks. The fabric is by Perennials, and the rope dining chairs are by YLiving.
