We are all about celebrating at the Dallas Design District. We celebrate beautiful design, stunning art, happy hours and good food. But today we want to celebrate something a little different.

We're dropping in on some of the most important members of the DDD family — the dogs of the Dallas Design District!

Here are just a few of the adorably furry faces you're likely to see around the DDD during your next visit.

## Luke and Nick

Breed: Airdales

Ann and David Sutherland's pups, Luke and Nick, are their showroom's best assets when it comes to showing off Perennials Fabrics' performance properties in the showroom. As all-star cuddlers, they love modeling pet-friendly upholstery. Luke excels at posing, but Nick's mess-making talents are in a league of their own.
