OPPOSITE A sculptural fixture illuminates a game table with custom seating that can travel to the dining room for overflow entertaining. A moody painting by Edward Lentsch and a softly patterned hand-loomed rug anchor the space. The louvered metal-and-glass barn door slides open to reveal one of two master suites. **ABOVE** The condo features multiple balconies, such as this one, which connects to the game room. Custom teak deep seating offers a comfortable spot to take in the views and enjoy the desert's enviable weather.
