Fringed Fantasies

From suede, leather, ball chain, cotton, rayon, and even in performance yarns, fringe transforms these furnishings into conversation pieces. It spans the style spectrum from artisanal to glam depending on the "shag quotient" and fabrication.

TOP ROW FROM LEFT: The Elan/S Fringe chair from Nathan Anthony, uses black leather strips patched into a geometric tile design that cascade to an 18" drop from the seat bottom. • Shaggy leather chair in ombré leather from South African Ngala Trading. • An ivory bullion fringe sweeps while it swivels on the Mary Jane chair at Highland House. • The Hendrix ottoman with ball-chain fringe from Marge Carson features metallic welt and brass nail heads. CENTER ROW FROM LEFT: Justina Blakeney's Fela tassel fringe chandelier at Selamat. • Corey Damen Jenkins' uses an ultra-thick brush fringe as welting on his Camilla sofa at Leathercraft. • The Epaulette trefoil ottoman by Personals Social at EJ Victor uses three layers of a short bullion fringe to create a skirt. Bonus is that the fringe is made of performance yarn. BOTTOM ROW FROM LEFT: Paula Queen of Pyar & Co. holding one of her new pillows. • Tailored leather fringe pillow from V Rugs & Home.
