

PRESERVE BEAUTY & POISE

Bill Schultz, President & Founder of AlignMed

Every individual tries to improve beauty through natural and artificial methods.

Practicing good posture is the key to retaining health and beauty. Improved flexibility and balance will enhance body shape and poise and height will reflect beauty.

AlignMed's revolutionary apparel has built-in technology to gently activate muscles and enhance your form. NeuroBands™ are constructed with a 4-way stretch variable elasticity that mimics muscle movement in your body. As you move, the NeuroBands™ move simultaneously to support and stabilize muscles and joints without restricting the body's range of motion.

AlignMed designs each product with a proprietary recipe of elasticity degrees. It is this dynamic synthesis that sets AlignMed apart.

NeuroBand™ Technology:

- Assist your body's muscle activity
- Can be discreetly worn under your clothing
- Incorporated as part of a daily wellness routine

AlignMed products can be worn comfortably and discreetly under your clothing to help muscles and joints balance themselves during any activity. Whether you use it for one hour, all day, or every other day it will support your form while conditioning you to be more aware of what proper poise and confidence should be and feel like.

Experience what everyone is talking about. Washable, moisture wicking, antimicrobial fabrics and comes with a convenient carrying bag.
