BEHIND THE NAME

Amatevi means 'love one another' in ancient Sicilian. There is nothing better than having the feeling of love, of home, of peace. We hope that the scent of Amatevi – pure, warm and a little nostalgic will help you feel in love and at peace.

MAKING

We went to Grasse, France (world capital of perfumes) to work with master perfumers and create our signature scent as an alcohol-free fragrance from purest, organic essential oils from the plants lovingly grown in Provence.

The sample you are receiving is 'fresh' and needs a couple of months to fully develop. Try it every few days to experience the process of fragrance finding its perfect balance. The notes – top, heart and base will also develop throughout the day to immerse you in the decadence of rose, orange flower, lily of the valley and mystery of other notes you will uncover and fall in love with.

SPREADING THE LOVE

We are getting ready to with making of our handblown glass bottles for the fragrances. We welcome your pre-orders in sets of 4. Each perfume bottle will have 50ml and will last for a very long time – with daily use probably a year. The oil is very concentrated, so you will need only a tiny amount each time you want to enjoy the scent.

Pre-order at katariskincare.com or on faire.com/kataribeauty.
