Combustion Training class

wednesday
March 13th
7:30 am - 3:30 pm

T.F. CAMPBELL CO.

Honeywell 7800 Series

Course Outline

- ✓ Honeywell Thermal Solutions: Division supporting 7800 Series Burner Control and Honeywell brand combustion equipment.
- ✓ Training aims to familiarize attendees with Honeywell Combustion controls, troubleshooting, and safety.
- ✓ Course covers relevant codes, combustion safety, includes labs, presentations, and Honeywell Literature (\$250 value!).
- ✓ Hands-on training with Honeywell controls and propane, focusing on wiring and troubleshooting.

Course Instructor

Neil Zebib, a seasoned instructor, has managed key accounts at Honeywell Combustion Controls and worked as a Sales Engineer at Honeywell MAXON. With a Bachelors of Science in Industrial Engineering from Rutgers University, his expertise is enriched by roles at Harbison-Walker Refractories and ZIRCAR Ceramics.

Class size is limited.
