## Urbane Short Motorcycle Protective Riding Boots

Conceptualized to bring you safety and comfort, the MotoTech Urbane Boots are manufactured with CE Certification EN 13634:2017 standards.

These sneaker style riding shoes provide adequate safety with protective reinforcement at the ankle, toes, foot-bed and heel. A rider can effortlessly put on and take off the boots with the convenient lace-up + velcro design. The sole is made of natural compound rubber offering tough grip and allows a natural flex.

The gear shift zone is reinforced to increase the longevity of the shoes due to the excessive use of that area.

With the Urbane Short Riding Boots, MotoTech shows its desire to offer Water Resistant shoes lined with Water-repellant and Breathable membrane, that helps in keeping your feet cool and comfortable during extended periods of use.

SIZES: EU-37 to 48 | UK- 3.5 to 12.5 | US- 4.5 to 13.5

## FEATURES:

- Made with lightweight, durable and easy to maintain microfiber material.
- Speed Lacing System + Velcro Strap allowing for a personalized fit.
- Reflective Accents on the heel for night-time visibility.
- Protective metal plate strategically placed at the foot-bed provides transversal rigidity of the sole.
- Highly resistant to abrasion, cutting and perforation.
- Rubberized Anti-wear Gear Shift Pad.
- In-built Malleolus Protection.
- EVA Insole with shaped heel counter for enhanced heel support.
- Build-in Thermoplastic for optimum heel and toe protection.
- Nylon based thicker foam pad for added ankle support.
- PTFE Water-repellent and breathable membrane (waterproof up to 35000 movements, permeability >10mg/sqcm/h as per EN20344 standards).
- Ultra-light outsole made of durable compound rubber mixed with textured anti-slip patterns offering better grip and excellent shock absorption.
- Double-stitched on all stress areas.

## Stealth Hydration Backpack - 8 Litres - Black

The Stealth Hydration Backpack is designed for optimal storage and organization. Featuring an 8-litre capacity and expandable storage compartment, the backpack lets you carry a hydration reservoir and a lot more, with ease. This backpack is the perfect companion for any outdoor activity.

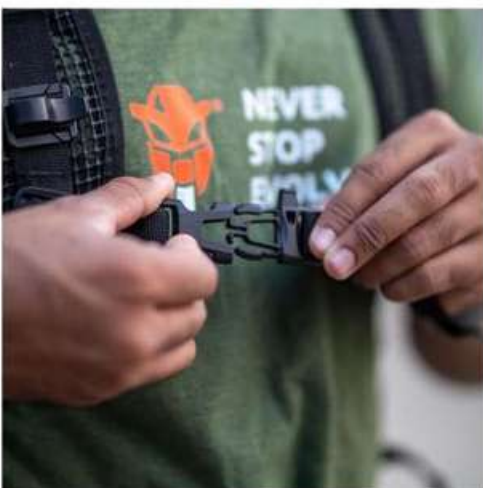

Stealth Hydration Backpack is engineered for durability and performance with a wear-resistant outer fabric and heavy-duty net shoulder straps.

The airflow system back panels keeps you aerated, while the reflective panels guarantee visibility in low light.

## FEATURES:

- Grid lock wear & tear resistant Nylon outer fabric.
- 2 mesh waist pockets + 4 zippered compartments.
- Front pocket for quick access items.
- Main compartment + Expandable Storage Compartment for Hydration Reservoir.
- High Quality long lasting zippers on all pockets and compartments.
- Adjustable Chest strap with Emergency Whistle.
- Adjustable Waist Strap.
- Airflo System Back Panels.
- Heavy duty net shoulder strap for ventilation.
- Approximate Volume - 8L.
- Reflective Panels for Low Light Visibility.

## Bulwark Bionic Knee Armour - CE Certified Knee Protector

The Mototech Bulwark Bionic Knee Armour is a streamlined guard that offers exceptional coverage to the knee, shin and lower thigh. The symmetrical, anatomic design grants great comfort and exceptional performance. The use of highly breathable construction materials ensure the knee protector remains comfortable, throughout a day long ride.

The multilayered construction is designed for motorcycle riders who want more coverage than conventional knee protectors. The three overlapped shells of semi-rigid and partially perforated polymeric material and black PE foam padding reduces the severity of injuries caused by impacts due to an accident.

The three elastic straps with pin lock fastening system helps in keeping the bionic knee protector in place.

## FEATURES:

- Complete protector covering the knee, shin & lower thigh.
- Lightweight knee guard that provides exceptional impact protection.
- Strategic protection points ensures that the knee protector meets CE standard 1621-1 Type B (k+l)
- Foam padding is removable with metal buttons attached to the polymeric layer.
- Knee cup features large lateral extensions for maximum protection coverage.
- Elastic, slim and easy to adjust straps with pin lock fastening system ensure a precise fit.
- Sold as a pair

**External Shell:** Three overlapped shells of black semi-rigid and partially perforated polymeric material

**Padding:** Declared black PE foam

**Securing System:** Three elastic straps with pin lock fastening system

## SAFE TECH

— SAFE AND FREE EVERYWHERE —

Safe Tech is a dynamic company operating in the sector of protections for the world of sport, able to propose a complete range of protectors.

All the protectors are made with a special polyurethane formula and with high-quality raw materials, all the production phases are managed entirely at Safe Tech, and the products are approved by European certifying bodies.

As well as protections, Safe Tech offers a 3D design service for the development of new projects, reverse engineering, prototyping and certification.

VISCO Flex prevents trauma to the human body by three methods:

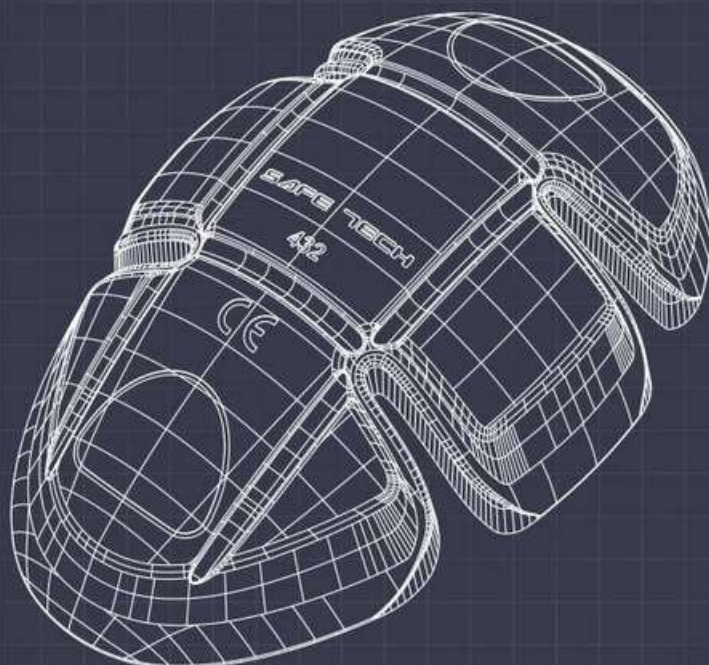

**1) Shock Absorption:**

Material absorbs impact energy through phase change (hardening).

**2) Shock Delay:** Material delays the transmittance of some shock to the human body over a longer period of time.

**3) Dissipation:** Impacts are dissipated over larger areas of the body.

### Hexapod Bungee Tie-down System- 32" / 80cms - Grey + Orange

The Hexapod is a multipurpose bungee tie down system, which gives you ample options and ways to fasten luggage or cargo loads using 3 or more of the bungee arms.

There are a total of 6 elastic attachment points with a strong and ultra-durable plastic hook made of POM (Polyoxymethylene), at each end. In the centre the 3 bungee cords are bound together with a sturdy triangular and super strong plastic ring, made of POM as well. All bungee cords are made from premium grade, first quality and long lasting latex rubber.

Plastic hooks have a multi-season usage potential, thus negating the problem caused by rusting of metal hooks in tropical or moist weather conditions.

## FEATURES:

- Bungee Cord is made of Quality Heat resistant Latex Rubber Thread.
- Outer Sheath is made of Polyester multi filament yarn.
- 3 bungee cords which make upto 6 arms offer better and solid anchoring options.
- Non rusting, strong and Ultra-durable plastic hooks.
- Sturdy and super strong triangular center ring.

**Diameter of each Bungee cord:**  
8mm

**Length of each Bungee Cord:**  
32" / 80cm

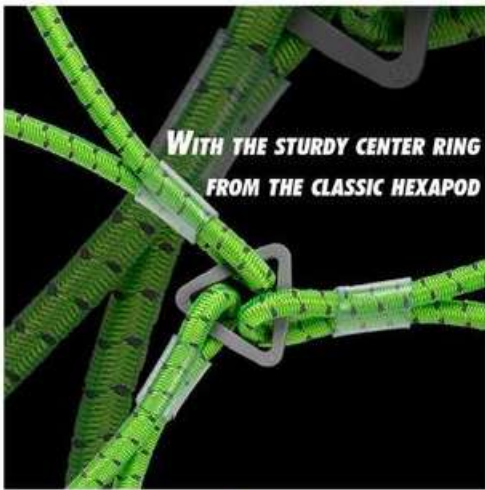

# Reflective Hexapod Bungee Cord Tie-down System - 32" / 80cms Neon + Grey

Building up on the success of the Hexapod, MotoTech now brings to you this new Reflective Heavy Duty Hexapod bungee cord, a multipurpose bungee tie down system, which gives you ample options and ways to fasten luggage or cargo loads using 3 or more of the bungee arms.

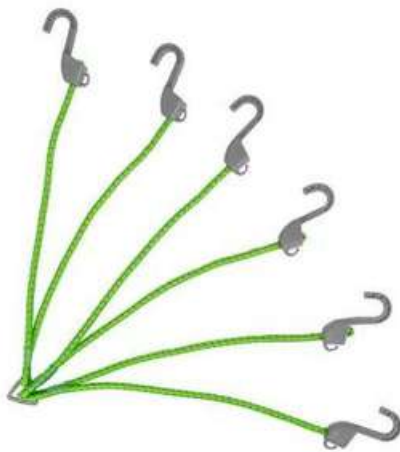

Securely mount your luggage in seconds with the Reflective Hexapod Bungee Cords.

Strong and flexible, the Hexapod have embedded retro reflective filaments that ensure you stay visible at night!

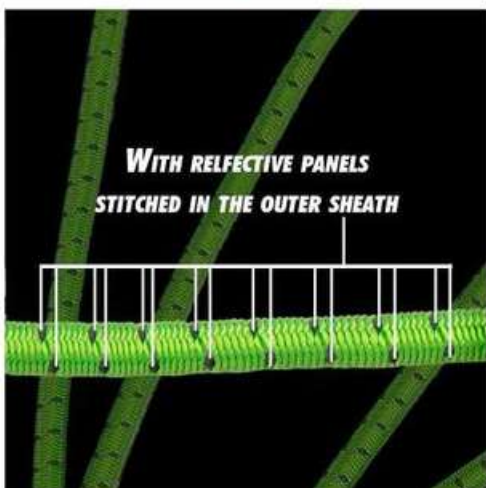

There are a total of 6 elastic attachment points with a strong and ultra-durable plastic hook made of POM (Polyoxymethylene), at each end. In the centre, the 3 bungee cords are bound together with a sturdy triangular and super strong ring, made of POM as well. All bungee cords are made from premium grade, first quality and long lasting latex rubber. Plastic hooks have a multi-season usage potential, thus negating the problem caused by rusting of metal hooks in tropical or moist weather conditions.

## FEATURES:

## Men's Round Neck T-Shirt- Green Melange

Enjoy outstanding durability and adaptability in any climate with our specially engineered merchandise, built to resist intense summer heat and maintain stylish appearance.

Ideal for all your outdoor expeditions.

SIZES: S, M, L, XL, XXL

# What Our Customers Say

[Google Reviews - Click Here](#)

This Hexapod is a very good gear for long rides. I had used this for my recent trip to Uthtrakhand, Shimla, Manali, Punjab, Chandigarh and Haryana. This Hexapod worked very well for me during the ride. Thank you Mototech gear for delivering me this on time ❤️

Vaisakh HK

Amazing products you'll have! Have been using the Mototech Tour pants and the dual sport gloves for some time now. They feel really comfortable and lightweight. Recently got their hydration bag and bladder combo. Build quality is really good.

Aakash M

Recently got the MotoTech Gear Reflex Air Flo Dual-Sport Motorcycle Riding Gloves in black, and I'm thoroughly impressed. The gloves are not only stylish but also feel incredibly robust, giving me the confidence that they can handle heavy-duty use. The ventilation design is a game-changer, providing a comfortable riding experience. The gloves themselves are perfect for any rider seeking both style and durability. Overall, a great addition to my riding gear collection! and Quality Product.
