Welcome to POGS

Thank you for buying POGS. POGS have been designed specifically for kids to enjoy music and other content in a safe, creative and sustainable way with great sound experience. We recommend that you take a few minutes to read through this manual, so you can get the most out of your POGS. We wish you a lot of joy with your POGS and please do reach out to us in case something isn't as you expected.

Contact

In case you would like to contact us, you can reach us by email on hello@pogsheadphones.com. We would love to hear from you!

Please include the invoice number for us to process your question. You will find the invoice number on the sales slip (enclosed with the product) or on the order confirmation you received by email.

What's in the box?

The box contains:

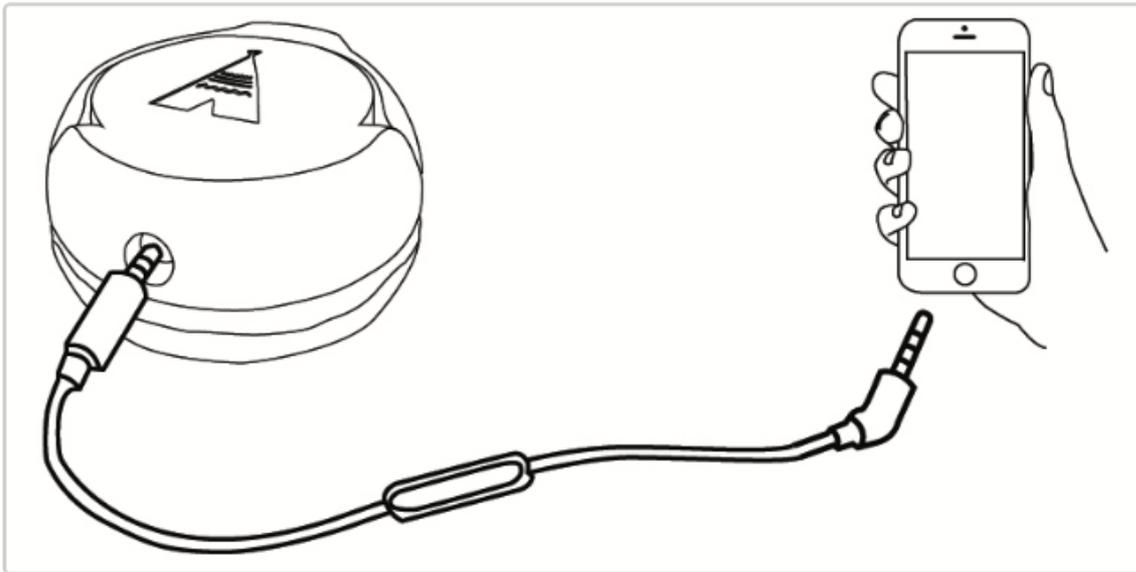

- 1 x POGS wired headphones
- 1 x QuickSafe cable with 3,5mm plug to connect POGS to your media device
- 1 x POGlink cable with 3,5mm plug to link up to other POGS

Getting Started

Getting started is easy with the POGS wired headphone.

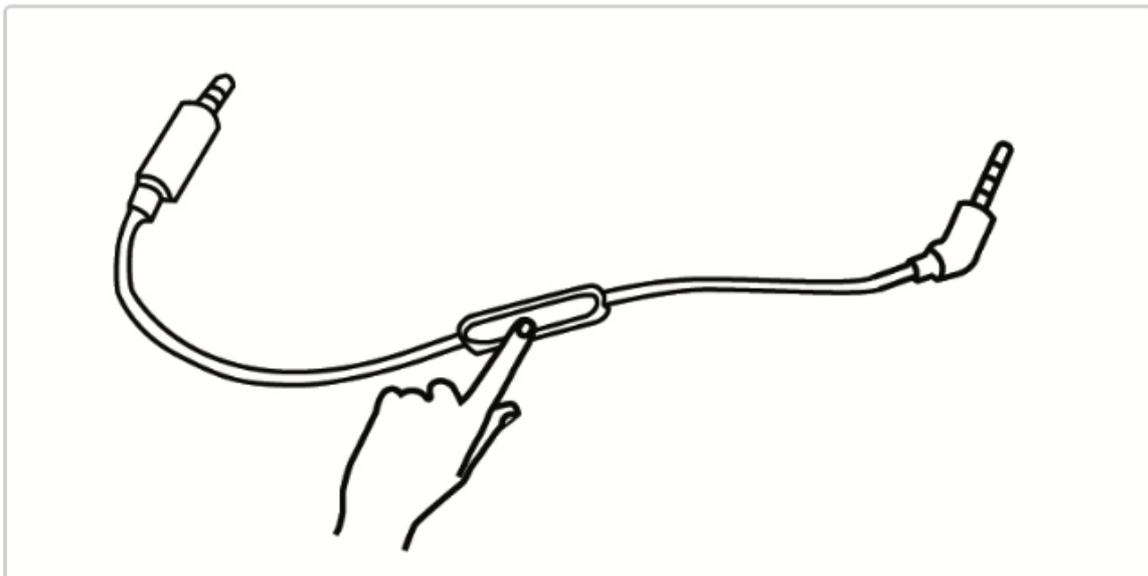

Connect one end of the POGS QuickSafe cable, the cable with the round plug, to your device and the other end to the ear can. See picture below. Now you are ready to use your POGS headphone.

Remote control with microphone

In the QuickSafe cable we have integrated a remote button.

Pressing the button once allows you to pause the music. Pressing it once more will play the music again.

In case you are connected to your mobile phone and you are receiving a call, pressing the button once will pick up the call. Pressing it once more will end the call.

There is a microphone integrated in the remote control button which allows you to talk with friends.

When connected to an Android or an Apple device pressing the button for more than 3 seconds will activate Google assistant or Siri.

Make yourself comfortable

Adjust the headband to your head size to optimize audio and wearing comfort.

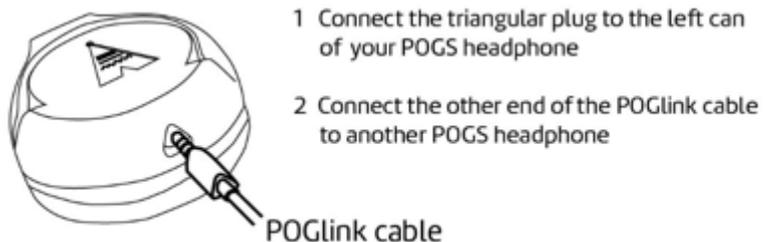

The ear cushions should comfortably rest on your ears and the headband should rest on your head.

Share Music with POGlink

You can share your content like music with another POGS headphones.

Connect the triangular POGlink cable to the triangular plughole in the left earcan and connect the other end of the POGlink cable to another POGS headphone.

Updated November 1, 2018

Care for your POGS

- We recommend that you clean the headphones regularly.
- Turn the headphones off and remove all cable connections before you start cleaning.
- You can remove any dust or light dirt with a dry microfibre cloth.
- You can wipe off more stubborn dirt with a cloth which has been slightly dampened with water.
- Then immediately wipe the damp surfaces off with a soft cloth without applying pressure.

NOTE

Liquid can destroy your headphones' electronics!

- Make sure that no liquids of any kind penetrate the headphones.
- Do not in any case use solvents or abrasive cleaners.

We would love for you to use our products for a long time, and the products have been developed to withstand a lot of rough handling. Nevertheless, it is possible that after a lot of use, the ear cushions start to wear or the cables have been twisted just a few times too often. Rather than disposing of your products, you can replace these parts, you can find these on the website, or contact us through email on hello@pogsheadphones.com and we are more than happy to help you extend the lifetime of your POGS.

Caring for our planet

Trees should go in the ground, not used products. That's why 10% of POGS profits goes to planting new trees, or cleaning the oceans.

After your POGS have served their duty, please take care when disposing of them.

POGS must not be disposed of with household waste! If the device is no longer operational, every consumer is required by law to dispose of old devices separately from household waste, e.g. at a collection point run by the communal authority/borough. This ensures that old devices are recycled in a professional manner and also rules out negative consequences for the environment. For this reason, electrical equipment is marked with the following symbol.

Having trouble?

We are sorry to find that you are having trouble using your POGS. The following advice should help you to solve problems. If this does not help, there are more you detailed FAQs on our website. And we are more than happy to help any queries you have, please reach out to us via email hello@pogsheadphones.com.

| Problem | Possible cause | Solution |
|--|------------------------------|--|
| I don't hear any sound in one or both ear cans | Cable is not connected well | Push the cable firmly in the ear can and in the device you are playing from to make sure they are connected well |
| | Volume has been set too low. | Increase the volume on the player |

Your safety is important to us

WARNING

Protect your hearing

Although POGS are volume limited, children are not recommended to be exposed to listening for more than 2 hours per day. Extended listening may negatively impact hearing.

Beware of your surroundings

Your headphones significantly dampen external noise.

Do not in any case wear your headphones when you are required to pay attention to your surroundings.

CAUTION

-  Ensure that the headphones do not become wet, protect them from moisture, heat (e.g. during the summer in cars) and mechanical influences (e.g. severe shocks, pressure and dropping).

Declaration of Conformity

POGS B.V. hereby declares that this product has been tested and is compliant according to the test standard EN 60065:2014 + A11: 2017.

Please note

The information in this document may change without prior notice and in no way constitutes any liability on the part of POGS B.V.

No part of this manual may be reproduced in any form or be broadcasted in any way electronically, mechanically, by photocopy or recording without the written permission of POGS B.V.
