

CIRO VENTED WINDSHIELD

Parts Included:

- 1 **Ciro Vented Windshield Assembly**

Installation Instructions:

1. **Park on a level surface and shut off the bike. Ensure that the engine has had time to cool before installation.**
2. **Remove the three windshield bolts along the top of the fairing with a T27 Torx.**
3. **Remove your stock windshield.**
4. **Peel up the bottom of the protective film and slide the *Ciro Vented Windshield* into your fairing, lining up the slots with the original bolt location. Do not insert the windshield too far due to risk of scratching it.**
5. **Put the three original T27 bolts back into the fairing and snug them up. Do not overtighten these bolts. They will strip the brass insert in the fairing. Remove the clear protective film.**

6. **Use the button on the back of the windshield to open and close the vent. Push down for open, and forward for closed.**

*** To clean the windshield:**

1. **Rinse with warm water.**
2. **Use a mild soap with warm water and a clean cloth to remove dirt/bugs.**
3. **Rinse and dry.**

Do not use harsh chemicals such as Lysol, 409, or Pinesol.

WARNING:

This indication alerts you to the fact that ignoring the contents described herein can result in potential serious injury or death if not followed.

CAUTION:

This indication alerts you to the fact that ignoring the contents described herein can or will result in material damage and/or personal injury.
