

UNLIT SPEAKER ACCENT

Parts Included:

- 1 Unlit Left Speaker Accent
- 1 Unlit Right Speaker Accent

Installation Instructions:

1. Park on a level surface and shut off the bike.
2. Use ammonia-based glass cleaner to wipe around existing speaker rounds. A clean surface ensures better adhesion.
3. Identify left and right speaker accents by locating L and R on inner sides.
4. Dry-fit Giro Unlit Speaker Accents to find best position. The two ribbed pieces on inner side should face up.
5. Temporarily holding speaker accent in position, use painter's tape to mark correct alignment. Use a knife to make a clean cut on tape between the speaker accent and fairing. This step will help you align speaker accent once adhesive backing is removed.

6. Activate adhesive by rubbing with fingernail. Remove adhesive backing and reinstall, aligning to previous tape marks.
7. Press and hold firmly for 60 seconds. Adhesive fully cures within 24 hours.

WARNING:

This indication alerts you to the fact that ignoring the contents described herein can result in potential serious injury or death if not followed.

CAUTION:

This indication alerts you to the fact that ignoring the contents described herein can or will result in material damage and/or personal injury.

ATTENTION:

All Giro products are designed for "easy assembly" and/or "plug and play". We recommend a competent mechanic install our products, using standard mechanical procedures to assure a safe and successful installation.

NOTE:

Giro products are designed and manufactured under very strict quality control. Giro products are warranted to be free of defects in material and workmanship for 1 (one) year from date of purchase by the consumer. Giro will have no obligation if the customer cannot show proof of purchase. Warranty will not be granted unless the part is properly installed and maintained. Giro will not be liable for any consequential and incidental damages, including labor, or non-Giro products. Please visit our website Giro3d.com for our complete warranty policy.
