

New Headlight Replacement Adjusting Nut, Tab & Screw Installation Instructions

Part #CC865760-A

Repairs/replaces original headlight adjusting nut tab on headlight shell and replaces CC865760 (adjusting nut) & CC865336 (adjusting screw).

Step 1: Remove original adjusting nut tab from headlight shell by drilling out rivets with 5/32" drill bit.

Step 2: Remove screws from new tab and place on headlight to mark between original tab holes & drill new 5/32" holes.

Step 3: Install new tab with new screws & nuts in new mounting holes.
