

09PWP12V02 & 09PWP24V02 WATCHDOG PANEL

Our range of weatherproof panels are designed with Australian conditions in mind.

Enclosed in PolyCarbonate plastic enclosures that provide excellent resistance against water, dust and mud ingress; the WP-Range of panels are built to last. With a range of panel options covering everything from basic engine protection panels, to the advanced irrigation panels complete with an engine run-down timer and first-out indication for fault finding, you can be sure to find the right panel at the right price

All panels in the WP range are supplied with a 3 metre split-conduit wiring loom terminated with plastic connectors, and gauge capillaries of the same length. Mating connectors are supplied. Wiring schematics are provided to assist with installation.
