STEREO CONNECTED DISPLAYS

DELIVER THE ULTIMATE INFOTAINMENT EXPERIENCE
ON ANY APPLICATION IN ANY ENVIRONMENT

POWERSVIEW® STEREO CONNECTED DISPLAYS

Ready to take operator experience to the next level? The Murphy PowerView series is expanding with **Stereo Connected** displays that bring infotainment experiences to any application. Infinite use cases and ultimate configurability. **Only with Murphy®.**

WHAT IS STEREO CONNECTED?

Selected PowerView displays labeled **“Stereo Connected”** feature built-in hardware for multimedia functions such as Bluetooth audio streaming, AM/FM radio tuners and local audio/video playback for alerts, training and troubleshooting. Exact feature availability may differ by hardware.

MUST-HAVE FEATURES

Radio Tuner

Tune in to your live and local AM, FM or Weather stations

Bluetooth Audio Streaming

Pair with a mobile device for your favorite music anywhere

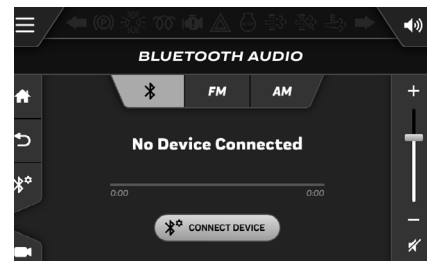

Local Audio/Video Playback

Deliver real-time audio feedback with alerts or videos with sound

BUILD WITH POWERSVISION

Creating immersive experiences for any application is possible using the latest version of **PowerVision Configuration Studio®**. Leverage a library of example projects created by application experts to get up and running quickly.
