Meet The Faria Beede Team

Rugged • Reliable • Innovative

Faria Beede Instruments, Inc. has been manufacturing gauges and instruments in Connecticut for more than 60 years. The company offers a full compliment of analog and digital engine monitoring and telematics solutions for a wide range of global marine, military, industrial and performance industries.

With the recent expansion into the Indiana facilities we have doubled our manufacturing capabilities and improved our state of the art electronic board building capabilities, to make the Faria Beede digital instruments even more reliable then ever before.

One of the few remaining vertically integrated U.S. manufacturers of SAE J1939 instrumentation, Faria Beede provides some of the best turnaround times and responsive support in the industry. This is only possible by having total control of all aspects of design, engineering and manufacturing.

Whether your needs are for the simplest or the more advanced computerized engines, Faria Beede has the instrumentation solution that is right for you.

Boxed Sets with GPS Speedometers

Chesapeake Black SS	KTF064	Inboard Set	6 gauge
Chesapeake White SS	KTF063	Inboard Set	6 gauge

The **Outboard Set** comes complete with Speedometer and Pitot, Tachometer, Fuel gauge and Voltmeter.

The **Inboard Set** comes with Speedometer and Pitot, Tachometer, Fuel gauge, Voltmeter, Water Temp gauge and Oil Pressure gauge.

GPS Speedometer

Featured

The GPS Speedometer is a drop-in replacement for your current speedometer.

The GPS **antenna is built-in** to the instruments and does not require an external antenna. **No additional hardware is required.**

The Faria Beede GPS Speedometer uses a highly accurate 48 channel GPS receiver. You can be sure that the GPS Speedometer is giving you the most accurate GPS information available on the market today.

Speed data is shown by an analog pointer. This pointer is driven by a digital stepper motor for increased accuracy and minimized pointer bounce.

GPS Speedometers

Catalog#	Factory #	Style	Range	Display	Case
33726	SGP004	Ches. Black SS	60 MPH	LCD	
33749	SGP114	Ches. Black SS	60 MPH		Studded
33829	SGP010	Ches. White SS	80 MPH	LCD	
33730	SGP012	Ches. Black SS	80 MPH	LCD	
33826	SGP003	Ches. White SS	60 MPH	LCD	
33839	SGP113	Ches. White SS	60 MPH		Studded
33147	SGP111	Dress White	60 MPH		Studded
32816	SGP110	Euro Black	60 MPH		Studded

Antenna built in.
No additional parts needed.

Features & Benefits

- Available in multiple speed ranges in MPH, KPH, and KNOTs
- Premium LED back-lit.
- Available with and without LCD displays showing Compass Rose heading and actual heading (COG)
- Fast satellite acquisition time (TTFF)
1 second from Hot Start
- Speed accuracy of +/- 1 MPH
- Heading accuracy of +/- 1 degree
- Digital stepper motor driven pointers
- Perfect for slow moving vessels where pitot tubes just don't work
- Ideal replacement for speed sensing devices (pitot tube and paddle wheel) that can fail over time

Enclosures

Deutsch connectorized harness

This premium style Speedometer is designed with the very latest technology. It is intended to fit directly into today's dash harnesses with easy Plug and Play connectors. Premium LED lighting and an optional diffused LCD display.

Studded harness

The studded Speedometer offers an easy way to add GPS technologies to your dash. Designed to fit into existing dash harnesses all ready installed. The Studded Speedometer connects directly to the battery and ground without the addition of a costly connector. Edge lit dials are easy to read in foul weather. Available in the more popular Faria Beede Classic styles.

Depth Sounders

DS0101	Professional Red	12850	12851	
DS0131	Kronos	19150	19151	

Dual Temperature Depth Sounders

Factory #	Style	Transom
DS1004	Ches. SS White	13852
DS1002	Ches. SS Black	13752

Features & Benefits

- Depth range: 1- 61 meters (3 -199 feet)
- Deep and Shallow water alarms
- Programmable keel off-set
- Automatic gain control
- Back lighting for maximum night vision;
- Metric or US standard units
- Easy to install!

Dual Temperature Depth Sounder can display outside air temperatures, baitwell or external water temperatures from 0 °C to 100 °C (32 °F to 200 °F).

Harnesses and connectors included.

Fits a standard 2 1/16" (53 mm) gauge mounting hole.

Accuracy at High Speeds

Our Engineers have incorporated the latest microprocessor technology and proprietary software designed to take advantage of today's high performance transducers. As a result this depth sounder outperforms all others on the market in its high speed capabilities and accuracy when faced with various bottom conditions.

The Depth Sounders from Faria offer a 3-199 foot (1-61meters) depth capability, with an automatic gain control, backlighting for maximum night vision, keel offset, and deep and shallow water alarms.

Depth can be read in meters, and feet. With its oversized back-lit display depth can be easily read in any condition. Audible and Visual alarms let the boater know when a shallow or deep water condition exist. A programmable keel offset lets you adjust the offset from the keel at the display.

Transducers

The Depth Sounder is available with either a Transom, In-Hull or a Thru Hull mounted transducer.

Dual Temperature Depth Sounder

The dual display of the Dual Temperature Depth Sounder can also show temperature of the water, baitwell or the ambient air temperature all from one 2" gauge.

Senders and Transducers

The Dual Temperature Depth Sounder comes with a Transom mounted transducer and temperature sender.

Multifunction Indicators

Dashboards are getting more and more crowded as today's technology explodes on to our boats. Often there are so many beeps and buzzes it's hard to see just what's happening. Of course, you can fill up your dash with lots of little two inch discrete gauges but that too is often just as confusing. That's why Faria Beede developed our multi-function gauge.

We've combined the most useful discrete gauges into a single instrument and then styled them to match many of our standard styles.

Let us be your solution for dash overload.

Heavy Duty Instruments

Heavy Duty instruments are performance proven under the most demanding conditions. Major manufacturers worldwide install Faria Beede instruments as original equipment.

You can rely on our American made products for quality, durability and easy installation.

- Anti-scratch glass lens
- Precision molded plastic cases for corrosion resistance and longevity
- Adaptable to 24 VDC systems (with optional resistor card)
- 12 volt DC negative ground
- Durable, rugged construction

For more information please contact Faria Beede at sales@FariaBeede.com or 860.848.9271

The choice of the world's leading boat manufacturers since 1957.

All of our instruments are performance proven under the most demanding conditions. They are factory installed original equipment with major manufacturers worldwide. You can rely on Faria Beede Instruments, Inc. for world class quality, dependability and ease of installation.

Contact Faria Beede for OEM gauge replacements. Many of the OEM styles can still be purchased through our Marine distributors. Before you contact us, have a picture of the gauge and the part number readily available. This helps us to identify the gauge, so that we can assist you better.

Repair costs can get expensive.

Restore • Replace • Rebuild • Repower

with Boxed Sets from Faria Beede. A cost effective OEM gauge replacement option.

Boxed Sets offer a complete set of instruments and everything you need to replace your old OEM installed instruments.

With many styles to choose from, Faria Beede has the look you want and savings that is easy on the budget.

When upgrading your engine don't forget about your instruments.

Faria Beede has an easy plug and play instrument replacement set that works with your new engine.

Faria Beede Limited Warranty

During the initial warranty period of 36 months from date of original retail purchase (12 months on fog resistant lens, Depth Sounder, MG1000 and MG3000 and 24 months on Senders, Transducers, Triducers and Smartducers), any instrument(s) that fails due to defects in materials or workmanship will be repaired or replaced at Faria Beede Instruments' option at no charge.

Once beyond the initial warranty period repair fees apply.

For more information go to
warranty.fariabeede.com

Transducers, Pitots

Combined with our Depth Sounders and other electronic instrumentation these transducers and senders offer a wide range of options to fit your needs.

SN2010
Adjustable In-hull Transducer

This in-hull transducer has a patented adjustable feature which ensures that sound waves are transmitted vertically to the bottom on almost any hull with a dead rise up to 22°. With no hull penetration, installation is easy and high speed performance is maximized.

SN2011
Transom Mounted Depth Transducer

With a low profile this depth unit offers little drag and easy installation for dead rise angles up to 30°. Designed with a release bracket to protect against impact damage. This unit provides good high speed operations up to 55 knots.

SN0015
Thru-hull Flush Mounted Temperature and Speed Sender

Perfect for water sports which require continuous accurate speed measurements like water-skiing, where boat angles can sometimes interrupt transom mounted senders. The thru-hull flush mounted temperature and speed sender offer virtually no drag. Easy installation and accuracy makes this sender the perfect choice for water sports. (Requires 1 5/8" hole in vessel.)

SN2031
Retactable Triducer Thru-Hull Transducer
Depth / Paddle Wheel Speed / Temperature Sensor
1 5/8" thru hull depth transducer.
(Requires 1 5/8" hole in vessel.)

SN2060
Thru-hull Transducer
1 5/8" thru hull depth transducer.
(Requires 1 5/8" hole in vessel.)

Pitot Tubes Assembly Kits
Complete transom mount speedometer pick-up with escutcheon plate and mounting hardware (two choices of tubing length) for use with all marine speedometers.

Catalog	Factory	Description
91109	KS9007	PITOT KIT (Universal)
91106	KS9003	PITOT KIT (Universal) (20 ft. tubing)
91105	CG0001	PITOT KIT (Escutcheon cover plate for pitot tubing)

Accessories - Senders

Fuel Level Senders

SAE 5 hole flange, adjustable for left or right arm movements and various tank depths. Includes gasket and screws and 2 #10 stud terminals.

Sealing gasket and mounting hardware required.

Catalog	Factory	Description
91001	LS6025	SENDER (Fuel Level) (American 8-16 inch) (Single)
91003	LS6026	SENDER (Fuel Level) (American 14-24 inch) (Single)
91005	LS6028	SENDER (Fuel Level) (European 20-40 cm) (Single)

(For Tanks 6 to 25" deep)

Temperature Senders

- 1/8" NPTF
- A wide variety of sender types
- Metric and Standard values available

Catalog	Factory	Description
90401	TS1029	SENDER (Temperature) (1/8) (American Single Standard)
90402	TS2035	SENDER (Temperature) (1/4) (American Single Standard)
90403	TS3044	SENDER (Temperature) (3/8) (American Single Standard)
90404	TS4042	SENDER (Temperature) (1/2) (American Single Standard)
90406	TS1056	SENDER (Temperature) (1/8) (American Dual Standard)
90412	TS1058	SENDER (Temperature) (1/8) (European Single Standard)
90405	TS5026	SENDER (Cylinder Head Temperature)

Pressure Senders

- 1/8" NPTF
- A wide variety of sender types
- Metric and Standard values available

Catalog	Factory	Description
90512	SD0003	SENDER (Oil Pressure) (1/8 NPTF American 80 PSI) (Single Standard)
90511	SD0025	SENDER (Oil Pressure) (1/8 NPTF American 80 PSI) (Dual Standard)
90516	SD0031	SENDER (Oil Pressure) (1/8 NPTF European 5 BAR) (Single Float)
90519	SD0006	SENDER (Oil Pressure) (1/8 NPTF American 100 PSI) (Single Standard)
90526	SD0035	SENDER (Oil Pressure) (1/8 NPTF European 10 BAR) (Single Standard)

Other Senders

Catalog	Factory	Description
90530	SD0041	SENDER (Rudder Angle) (Single station) (Standard or Floating ground)
90901	DK9005	SENDER (Tachometer) (Diesel) (Mechanical takeoff)

Lighting Replacements

KTF053	LM0067	LIGHTING [LED] (Bulb replacement pack (BLUE) (4 inch gauges) (2 pack)
KTF052	LM0078	LIGHTING [LED] (Bulb replacement pack (BLUE) (2 inch gauges) (2 pack)

Specifications

Our instruments are manufactured by Faria Beede Instruments., Inc. in Uncasville Connecticut, USA. Each instrument has been manufactured in an ISO:9001 2008 registered facility, built to stringent standards and has passed a comprehensive quality control procedure prior to shipment. Each instrument is backed by the Faria Beede Limited Warranty.

4" & 5" Electronic Instruments

Operating Temperature	-4 °F to +158° F (-20° C to +70° C)
Storage Temperature	-22° F to +185° F (-30° C to +85° C)
Lighting	See product line for specific information
Operating Voltage	11.5 to 16 volts
Nominal Voltage	14.2 volts
Current Consumption	< 100 mA, without illumination
Bezel	Stainless Steel or Aluminum - see product line for specific information
Lens	Glass or Poly carbonate - see product line for specific information
Connection	Studs, blade terminals, connectors - see product line for specific information
Mounting Bracket	Plastic mounting clamp. Clamping range 0 -.8" (0-20 mm)
Torque	5 to 7 inch pounds (.57 - .80 Nm)
Mounting Hole	3 3/8" (85 mm) for 4" Instrument – 4 3/8" (112 mm) for 5" Instrument

4" & 5" Mechanical Instruments

Operating Temperature	-22° F to +185° F (-30° C to +85° C)
Storage Temperature	-40° F to +221° F (-40° C to +105° C)
Lighting	See product line for specific information
Bezel	Stainless Steel or Aluminum - see product line for specific information
Lens	Glass or Poly carbonate - see product line for specific information
Connection	Studs, blade terminals - see product line for specific information
Mounting Bracket	Plastic mounting clamp. Clamping range 0 -.8" (0-20 mm)
Torque	5 to 7 inch pounds (.57 - .80 Nm)
Mounting Hole	3 3/8" (85 mm) for 4" Instrument – 4 3/8" (112 mm) for 5" Instrument

2" Electronic Instruments

Operating Temperature	-4 °F to +158°F (-20° C to +70° C)
Storage Temperature	-22° F to +185°F (-30° C to +85° C)
Lighting	See product line for specific information
Operating Voltage	11.5 to 16 volts
Nominal Voltage	14.2 volts
Current Consumption	< 100 mA, without illumination
Bezel	Stainless Steel or Aluminum - see product line for specific information
Lens	Glass or Poly carbonate - see product line for specific information
Connection	Studs, blade terminals, connectors - see product line for specific information
Mounting Bracket	Plastic mounting clamp. Clamping range 0 -.8" (0-20 mm)
Torque	5 to 7 inch pounds (.57 - .80 Nm)
Mounting Hole	2 1/16" (53 mm) for 2" Instrument

2" Mechanical Instruments

Operating Temperature	-22 ° F to +185°F (-30° C to +85° C)
Storage Temperature	-40 ° F to +221°F (-40° C to +105° C)
Lighting	See product line for specific information
Bezel	Stainless Steel or Aluminum - see product line for specific information
Lens	Glass or Poly carbonate - see product line for specific information
Connection	Studs, blade terminals - see product line for specific information
Mounting Bracket	Plastic clamp, metal on water pressure. Clamping range 0 -.8" (0-20 mm)
Torque	5 to 7 inch pounds (.57 - .80 Nm)
Mounting Hole	2 1/16" (53 mm) for 2" Instrument
