COMPANY HISTORY

I founded GVA group Inc. In 2012 after realizing that my wife, who used to work as hair extensions master at the time, always got hair of variable quality.

We couldn't find a firm anywhere in the world that would offer the highest quality hair for a fair price.

So, we decided to found our own hair company and master this craft. We began dying and selling luxurious quality hair in Russia. Our product rapidly became popular and demanded. After the first 20 meetings with hair extensions masters, 19 of them decided to do business with us. I am very proud to say that every single one of them is still working with us, GVA group inc.

At the moment, we sell hair on every continent, and more than 10,000 beauty salons receive a monthly product from our distributors or our private label customers.
