

## Booms

### Universal Booms

High Capacity Universal Sorbent Booms are designed to absorb up to 5.8 Gallons of materials such as oils, coolants, solvents or water. Each Boom is encased in an outer netting preventing the material from shedding even when completely saturated.

Metal Hardware at each end of the Boom can be used to connect multiple Booms together to cover a large area, or to tie a rope for easy retrieval.

Part Number	Type	Size	Case Quantity
GB510SN	Universal Boom	5" x 10' L	4/Case

### Oil Only Booms

Oil Only Booms are ideal for outdoor spill response when absorbing Oils and other Hydrocarbons is involved. The Poly Blend Media provides quick and efficient clean up. Metal Hardware at each end of the Boom can be used to connect multiple Booms together to cover a large area, or to tie a rope for easy retrieval.
