

Drum Tops

Drum Tops are designed to keep Storage Drum Containments area neat and clean with these pre-cut 55 Gallon Drum Tops. These tops fit snug on the top of the standard 22" Diameter Drum so it can collect all spills and contaminants that may leak out of the drum.

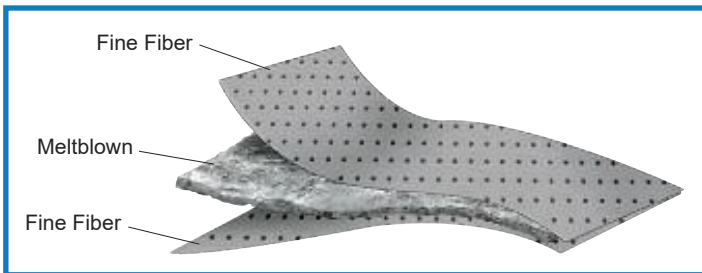

Each Drum Top is constructed of multiple layers of Polypropylene Media ultrasonically bonded to a High-Loft Meltblown Layer. This allows for maximum absorbency.

Available in both Oil Only and Universal configurations.

Specifications
