

## Filter Bag Adapter Head

Filter Bag Adapter Heads provide a Quick and Simple method to filter liquids where installation of a filter of a filter housing is not feasible. Filter Adapter Heads are made of highly chemical resistant Polypropylene and are typically used for low pressure applications only.

The Filter Bag Adapter Heads are very simple to use. Attach the adapter head to the end of a pipe and slip the filter bag over the adapter head so it hangs down.

### Construction

- Made of highly chemical resistant Polypropylene
- 1.5" or 2" FNPT Connection
- Specifically made for a Standard 7" Diameter Bag (Trade Size #1 or #2) or a Standard 4" Diameter Bag (Trade Size #3 or #4) with Steel or SS Ring

### Applications

- For low pressure applications only
- Gravity Return Systems
- Recirculating Tank or Chemical Baths
- Fish Farms/Aquariums
- Dewatering
- Remediation
- Waste Vegetable Oil Prefiltration
- Metal Working Coolants
- Paints and Adhesives

### Specifications

Model	Dimensions	Connection Size	Material
0.75PO4AD	4" Diameter	3/4" FNPT	Polypropylene
1.00PO4AD	4" Diameter	1" FNPT	Polypropylene
1.25PO4AD	4" Diameter	1-1/4" FNPT	Polypropylene
1.50PO7AD	7" Diameter	1-1/2" FNPT	Polypropylene
2.00PO7AD	7" Diameter	2" FNPT	Polypropylene
