

SURETORQ®

Quality Is All That Matters

Company History

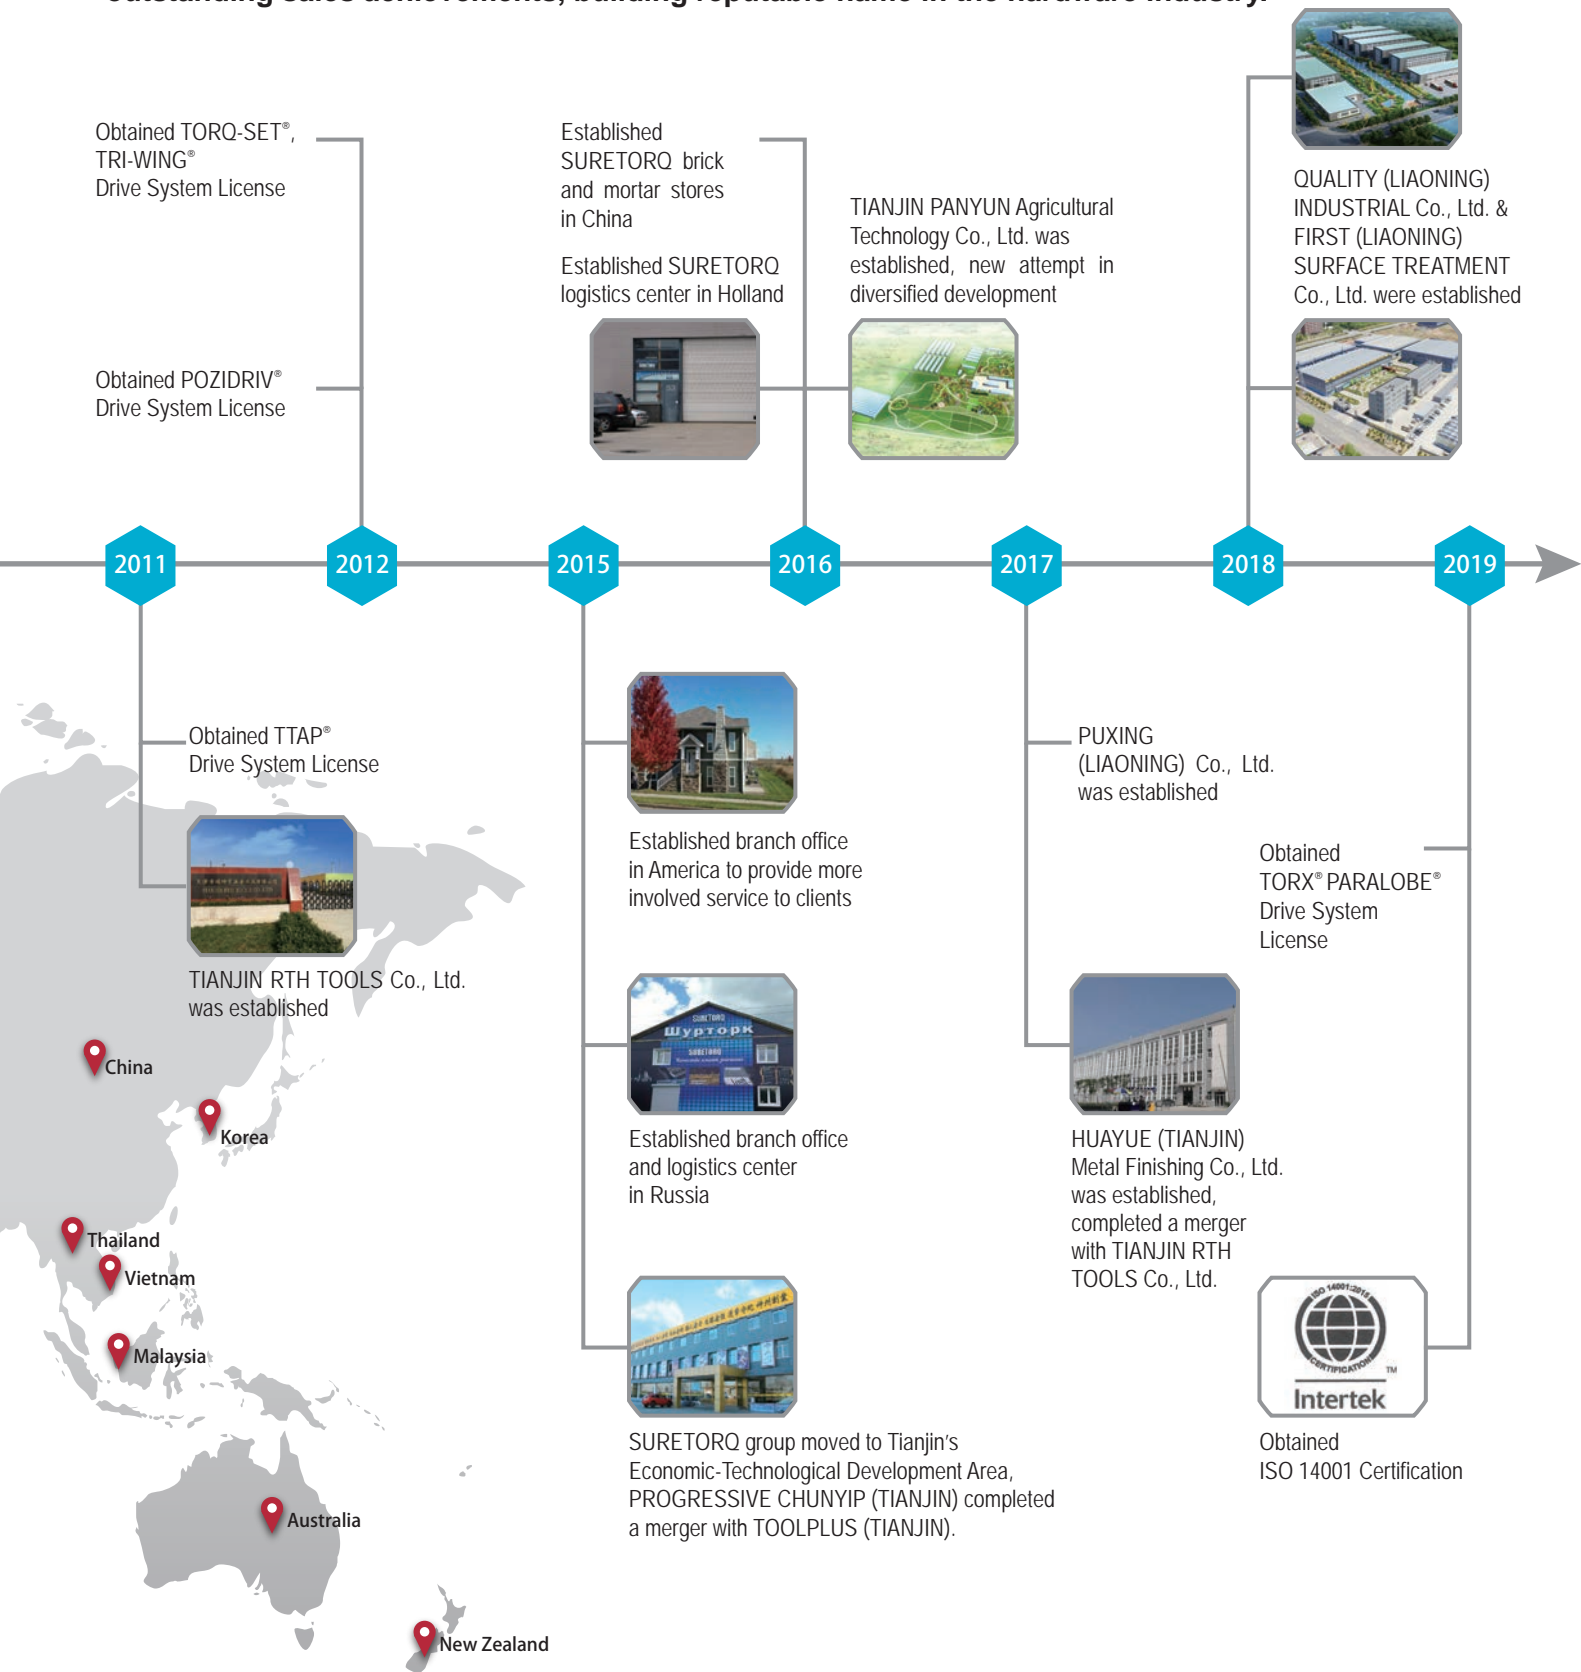

SURETORQ Group, established in 1995, is a foreign-owned enterprise specializing in the research, development, and manufacturing of screwdriver bits, power tool accessories and hand tools, as well as tool accessory sets.

SURETORQ Group, headquartered in Hong Kong, has invested in establishing four factories in China mainland, which located in Tianjin, Hebei, and Liaoning province. Satellite offices, warehousing, and distribution facilities have also been established in Canada, United States, Russia, and the Netherlands, employing more than 1,000 people worldwide.

In expanding overseas, the group has formed a unified network of production, sales, and service to meet the needs of the world market. Over 90% of the products are exported to North and South America, Europe, Latin America, Asia Pacific and Australia.

Adhering to dynamic operation management, advanced production technology, and strict quality management, SURETORQ has gained efficient product design, high quality manufacturing, outstanding sales achievements, building reputable name in the hardware industry.

Licenses & Patents

In setting the bar high to ensure quality products, SURETORQ successfully obtained ten screwdriving system technology licenses from CAMCAR Innovations and Phillips Screw Company. With manufacturing facilities fully equipped with advanced imported and domestic automatic production and inspection equipment, SURETORQ adheres to the stringent requirements of internationally recognized standards organizations such as ANSI, DIN, and ISO.

SURETORQ, with its own research and development team, currently holds over one hundred design and utility patents with new applications being submitted each year. SURETORQ continuously strives to provide quality innovative products to meet and exceed clients' expectations.

ISO & BSCI

SURETORQ passed ISO 9001:2015, ISO 14001:2015
& Business Social Compliance Initiative Audit

Certificate CN05/00138.00

The management system of
Progressive Chun Yip (Tianjin) Co., Ltd.

Unified Social Credit Code: 9112011960007962L
Business Registration Address: No. 70, Xinye IP Street, West Zone, Tianjin Economic and Technological Development Area, Tianjin, P.R. China
Business Operator Address: No. 70, Xinye IP Street, West Zone, Tianjin Economic and Technological Development Area, Tianjin, P.R. China

Has been assessed and certified as meeting the requirements of
ISO 9001:2015

For the following activities
Manufacture of screwdriver bits, nut drivers, quick chucks and their tool sets; Manufacture of screw extractors, bolt extractors and their tool sets; Design and manufacture of plastic boxes for hardware tools; Assembly of hardware tools

This certificate is valid from 12 March 2023 until 11 March 2026 and remains valid subject to satisfactory surveillance audits.
Issue 13. Certified since 14 March 2020

Impact Performance Tools

Impact Driver Bit

- High-grade S2 steel.
- Built for maximum performance and durability with impact drivers.

- Precision CNC head provides broad contact surface to the screws, reduce head damage at high torque fastening operations.
- Torsion zone absorbs impact force and high torque output.
- Laser marking for easy identification of bit size.
- Black phosphate coating resists corrosion and increases bit life.

1. Place the screw holder over the tip of the bit.

2. The screw holder is locked in place when it clicks.

3. The magnetic ring on the screw holder is now aligned with the tip of the bit.

4. Magnet helps secure the screw to the bit tip.

	Impact socket adapter 3/8" (2")	1

Professional

Heavy-duty Working Tools

Heavy-duty Professional Screwdriver Bits

- High-grade S2 steel, with special heat treatment and high torque output.
- Sand blasted surface.

- Precision CNC head provides broad contact surface to the screws, reduce head damage at high torque fastening operations.
- Ideal for standard and impact drivers, be widely used in the assembly line, equipment maintenance, construction and other fields.

2016 certification
TORX Drive System

The TORX® Drive System was specifically designed to provide a simple, cost-effective solution to the problems inherent in the process of installing and removing fasteners. Used in a multitude of industries, the TORX Drive System can enhance product reliability, increase productivity, and reduce total assembly costs — all of which are keys to remaining competitive in today's marketplace.

Features

- Lead-in chamfer
- 15° drive angle
- Straight side walls
- Broad contact surface
- Can be used with fastener diameters from M0.9 to M24 (#00 to 1")

Benefits

- Reduces camout
- Reduces need for excessive end load force
- Extends tool life
- Reduces worker fatigue
- Reduces rework and scrap
- Reduces radial forces which damage tools and fastener

TORX® is a registered trademark of Acument® Intellectual Properties, LLC.

TORX PLUS® IPR Drive Systems

Manufacturers the world over are discovering how the TORX PLUS® Drive increases torque transfer, extends tool life, and increases productivity on their assembly lines. Now these benefits are available in a unique tamper-resistant version. When combined with a countersunk or button head design, the tamper-resistant TORX PLUS fastener is extremely difficult to remove without the proper tool.

Provides Restricted Access To Any Application
The tamper-resistant TORX PLUS® Drive offers restricted access in the field along with all the assembly benefits of the TORX PLUS Drive.

Features

- Non-symmetrical, elliptically-based geometric configuration
- Five lobes with solid post in center of recess
- Drivers only available to OEMs and authorized service personnel
- Concentricity and tight tolerances of tamper-resistant TORX PLUS tools make them very difficult to counterfeit

Benefits

- Allows optimum torque transfer and increased drivability
- Allows improved productivity on the assembly line
- Non-symmetrical shape provides increased resistance to tampering
- Limited access to proper drivers maintains integrity of system

2016 certification

- Stick-fit: screwdriver "sticks" in the recess
- No wobbling: driver does not wobble and cam-out of the recess
- One-handed operation: possible because it is stable, you don't need one hand on the screw and the other on the driver
- No magnetic bit holder needed: thus there are no steel splinters to clog the bit
- Guiding: screwdriver enters the screw recess more easily (also advantage on collated screws).

WHY SELECT SURETORQ ?

Our competence

SURETORQ has always been committed to the production of industrial grade professional tools, with rich experience in research and development and manufacturing, is the main OEM supplier and manufacturer for world's leading industrial tool brand. SURETORQ has established a strategic cooperative relationship with most hardware chain store, wholesaler and retailers in North America, Europe and in Asia pacific.

Quality assurance

As ISO 9001 certified manufacturer, SURETORQ inherited the strict attitude and the spirit of seeking excellence for product quality and technology. At the same time, SURETORQ has won the extended trust from their customers depending on the deep-rooted quality concept, strict management system and expert manufacturing technology. SURETORQ quality products which conform to ANSI, DIN or ISO standard will guarantee maximum performance and durability.

Comprehensive product range

SURETORQ has developed a full range of products including drill and driving accessories, carpentry

and hand tools, mechanics tools as well as plastic injection products. SURETORQ has never ceased from research and development innovated products. By virtue of a powerful R & D team, advanced equipments and first-class production technology, SURETORQ will continually supply professional tools to the world market.

Licensed technique

SURETORQ is the licensee of the CAMCAR Innovations and Phillips Screw Company who are the leaders in the design and engineering of proprietary fastener technology. Licensed drive tools were authorized to be manufactured and sold by SURETORQ including TORX®, TORXplus®, TORX ttap®, TORX PARALOBE®, MORTORQ®SUPER, Phillips Square-Driv®, ACR Phillips II®, POZIDRIV®, Torq-Set® and Tri-wing® drive systems.

Worldwide customer contact and logistic service

Customer's satisfaction is our success. SURETORQ will assist customers to build product lines at any time any place. To maintain a stable service level, SURETORQ will select the most powerful shipping companies who can provide safe, reliable, punctual and economic worldwide delivery.
