

There's two ways to measure your ring size at home.

Method 1:

Print out this page. **Do NOT check 'fit to page' as the printed measurements must stay the same.** Measure a ring you already have by placing it over the top of one of the circles below. Line the inside of your ring up with a circle. This is your approximate UK ring size.

Method 2:

Purchase a UK ring gauge from us [here](http://johngarlandtaylor.com/products/ring-gauge) (johngarlandtaylor.com/products/ring-gauge).

You can then use our ring gauge to find your perfect fit before ordering. Once you have your size you can order without worrying about the need to resize.

Our ring gauge measures UK sizes from A-Z. If you need a size larger than Z please contact us directly.
