FUNCTIONAL READING ACUITY TEST

This test is a non-standardized screening test for reading disability under high contrast and low (approximately 10%) contrast conditions and for approximating the best print size required for reading. See Whittaker, SG, Scheiman, M., Sokol-McKay, D. Low Vision Rehabilitation: A Practical Guide for Occupational Therapists, Slack, 2016 for administration procedures. Developed by Stephen G Whittaker.
She ran through the field kicking the ball toward the other goal.
The children sat very still while the man told a story about frogs.
A group of sailors dashed through the park into the waiting car.

The teacher who was wearing a bright red shirt sang an old song.
I parked my green truck in the gravel lot near the motel office.

Many people walk from our dining room to the large front porch.

The boss returned to the office with three cups of hot coffee.
He carried the old books and stacks of paper down the stairs.

She locked the front door and carried boxes of food to her car.

The little girl looked at three wild animals climbing the hill.

The boy read the numbers next to a dim light in the old kitchen.

A handsome young couple rode down the road in a fast red car.

For the past several days the ground has been dry and very hard.
## Chart design and Equivalent Snellen Acuity.

*Distance in meters at which the lower case “o” width is 5 minarc.

Based on width of the letter lower case “o” – Cambria (a serif) font. San serif fonts and numbers of the same font size are typically larger. Note points are M size X 10.

**Measuring reading acuity.** This chart has not been standardized or validated. It is for screening for disability only. It is impossible to identify a reading level for individual sentences using a standard metric. A formal validation study would be required to equate the difficulty level of these sentences. By design and examining the results of 4 reading level metrics and vocabulary used in the sentences, the reading level is estimated to be between 4-6 grade USA.

**Buttermilk PANCAKE MIX**

**THE MILK'S ALREADY IN THE MIX**
A superb quality mix made from first grade unbleached, unenriched flour of the same fine quality made famous since 1823. Milled from select grains and blended with the best known ingredients.

**DIRECTIONS:** Preheat griddle to 375°F. Mix with cold water. Stir to proper consistency, add egg if you wish, and bake at once on a hot griddle.

**QUICK PANCAKE RECIPE — MAKES ABOUT 16 PANCAKES**
2 cups pancake mix • ¾ cups cold water (no milk necessary) • 1 egg (if you wish, or 2 tbsp. melted shortening or cooking oil)
Mix until batter is smooth. Pour about 3 tbsp. batter on hot griddle for each cake (griddle should be lightly greased). Bake until bubbles break over surface, turn and brown other side.

**DELICIOUS WAFFLE RECIPE — MAKES WAFFLES FOR 4**
2 cups pancake mix • ¾-2 cups cold water • 2 tbsp. melted shortening or cooking oil • 2 beaten eggs
Mix flour and water together; fold in well beaten eggs and shortening. Bake at once on a hot waffle iron.

**FABULOUS FISH BATTER**
1 cup pancake mix • 1 cup cold club soda or soda of choice
Additional pancake mix for coating fish • Salt & Pepper (optional)
Dip the fish fillets lightly in the additional dry pancake mix to coat evenly. Set them aside (not touching) on waxed paper. Mix 1 cup of pancake mix, club soda & seasoning together and set aside.
Heat oil or shortening in a heavy saucepan or deep fryer to 375°F. Dip the floured fillets one at a time into the batter and then into the hot oil. Cook about 3 minutes on each side or until browned on the outside and the fish is tender. Remove onto paper towels to drain.

Refrigerate or store mix in a cool, dry place.
