

Framing

With two framing styles and two timber options for both our Classic frame and our Premium frame, the decision is simple. Both frames are made with exactly the same highest quality timbers with the only difference being the front face of the frame.

The Classic frame comes in a budget conscious, lightweight and easy to ship museum grade Plexiglass.

The Premium frame comes with ArtGlass, the highest quality reflection free glass available in the world.

If this is a feature piece for your home or office, this is definitely the option for you.

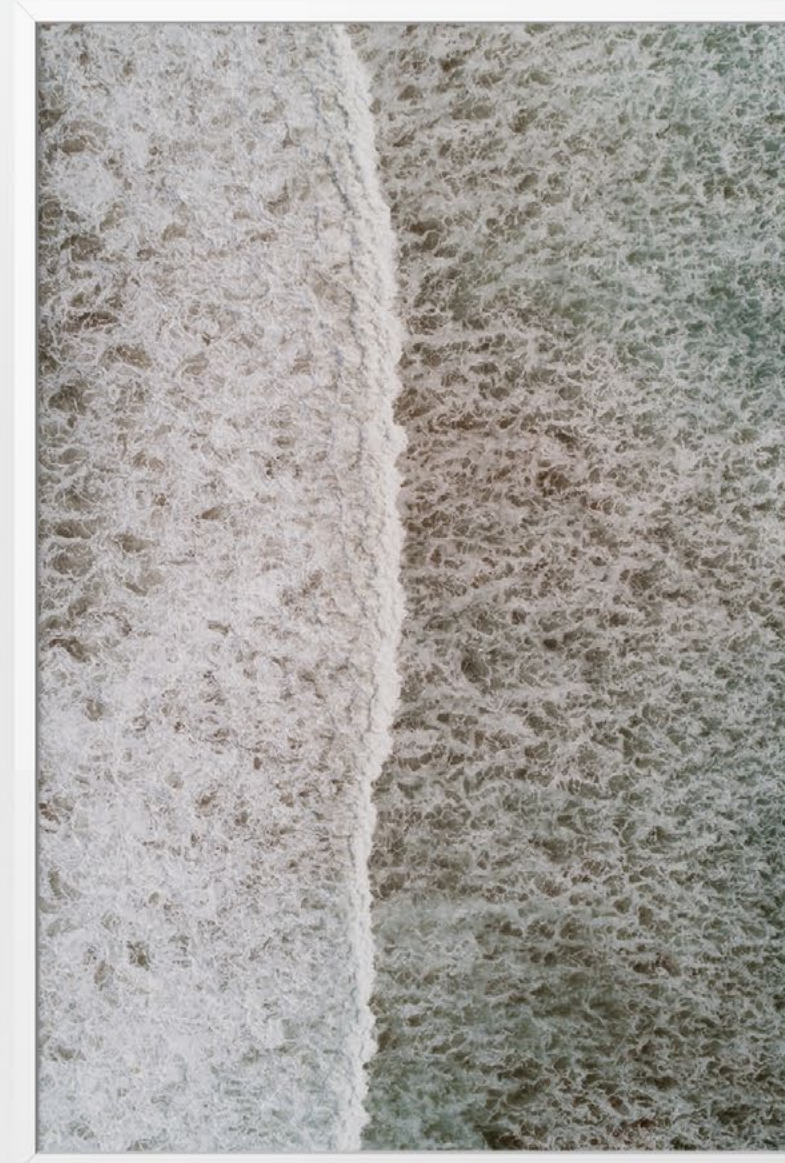

You quite simply cannot get a better looking frame anywhere.
