Custom Button Template

Once you have read the instructions below, turn off the Instructions Layer to access the template

- Open the template and create your artwork in the file - do not copy the template into a new file.
- Create your artwork at 300 dpi in CMYK format.
- Everything inside the BUTTON FACE GUIDE LINE will be on the front of your button.
- Any background colour or pattern must extend to the CUT LINE but not past it (no bleed).
- All text MUST be outlined or flattened.
- Keep any front text inside the SAFE AREA line or it may be cut off at the edge.
- Text on the edge of the button must fit between the black ----------- lines.
- The CUT LINE must be completely visible.
- Turn OFF or delete BUTTON FACE and SAFE AREA guide lines so they are not visible
- Send us your artwork as a JPEG, TIFF or PDF or as a PSD or AI File.

———— CUT LINE
———— BUTTON FACE GUIDE LINE
- - - - - SAFE AREA

Download the Template ➡ Add Your Artwork ➡ Turn off inner guides and send it to us! ➡ When it's done it will look something like this!

2.5" Diamond
