## Cold Bruer

### What You'll Need:

Coffee	50g
Grinder	Paper Filter Setting
Liquid	100g ice cubes + 600g filtered water
DPM	60 (Drips Per Minute)

### Preparation:

- Grind 50g coffee on paper filter setting (medium / course)
- Insert mesh filter with fine side facing up. Connect to glass tower.
- Weigh 100g of ice cubes & 600g filter water

### Brew Recipe:

- Add coffee to chamber
- Place paper filter on top of coffee
- Insert valve, ensure it seals
- Add ice and water to the tower
- Turn the knob to set the drip rate to 60 drips per minute (1 drip per second)
- Leave to brew till all water is through.

Tip: Your grind size will change the speed of extraction & therefore the flavour.

- Enjoy!
