N.B: For routine quality control local test methods may be applied. Such methods have been validated against those mentioned in this datasheet.

Quality

Isopropyl Alcohol Cosmetic can be supplied to meet the requirements of ASTM D770, DIN 53245 and European Pharmacopoeia. Isopropyl Alcohol cosmetic does not contain detectable quantities of polycyclic aromatics, heavy metals or chlorinated compounds.

Storage Handling

Provided proper storage and handling precautions are taken we would expect Isopropyl Alcohol Cosmetic to be technically stable for at least 12 months.
