## MI-POD PRO DEVICE DIAGRAM

## ABOUT MI-POD PRO

The Mi-Pod Pro is a super compact & innovative electronic vapor starter kit with 2mL E-Juice capacity and a custom made 950mAh built-in battery. Featuring a patented OAS system (Oil and Air Separated), with top air flow and no leaking, the Mi-pod brings you a new vaping experience. Furthermore, the Mi-pod is made with an auto draw function, 3-color power indicators and pass-through charging with USB-C, making it very convenient to use and charge.

## MAIN FEATURES

- The first innovative dual air flow design, Oil and Air Separated, top flow, no leaking
- Compact size and large battery capacity (950mAh and 2mL E-Juice Capacity)
- Replaceable Cartridge (Disposable/Refillable)
- Auto-Draw & On/Off Button
- Power Display: Blue, Purple and Red (High, Med, Low)
- 10 Seconds Cut Off
- Short Circuit Protection
- Low Voltage Protection
- Low Resistance Protection
- Over Heating Protection (PCBA Temperature)

## TECHNICAL SPECIFICATIONS

- ⦿ Power Mode: Full-Power Output
- ⦿ Maximum Current: 15A
- ⦿ Cartridge Resistance Range: 0.9ohm
- ⦿ Battery: Built-in 950mAh Square High-Drain Lithium Battery
- ⦿ Output Voltage: 3.0-4.2V
- ⦿ Power Display: Blue, Purple, & Red
- ⦿ Working Mode: Auto Switch & ON/OFF Button

## HOW TO USE

1. E-Juice Filling: Take out the cartridge and open the cover, inject directly into the chambered slot and put the cover back (Refillable Cartridges)
2. Install: Put the filled cartridge into the Mi-pod body properly.
3. On/Off: Press the button rapidly 5 times, the Mi-Pod will flash red 5 times to indicate the Mi-pod is ready to use. In the same way to turn the Mi-Pod off rapidly press the button 5 times.
4. Vaping: Start to inhale and the window light will turn on at the same time. (The window light will change color due to power level.)

## STEALTH MODE

Hold the power button for 5 seconds. The light will flash 2 times. This will indicate that the stealth mode is active. No light will illuminate when inhaling. To turn the light back on, hold the button for 5 seconds again. The light will flash 2 times indicating that the stealth mode is inactivated.

## WORKING TIME

10 Second Cut Off: If inhaling more than 10 seconds, the Mi-pod will turn off. Press the power button rapidly 5 times to activate your Mi-pod.

## CHARGING

**REMOVE THE POD FROM THE MI-POD PRO DEVICE BEFORE CHARGING.** Simply charge the Mi-Pod device by connecting it with a 1 AMP wall adapter via USB- C cable supplied in kit. LED is lighting and showing the current power status. During the charging duration, the LED light will change from red, to purple, then to blue. When its fully charged, the LED light will turn off. If the Mi-pod is fully charged when plugging in to the wall charge the LED Light will flash blue 10 times to indicate the Mi-pod is fully charged. **ONLY CHARGE THE MI-POD DEVICE WITH 1AMP WALL CHARGERS AND THE SUPPLIED USB -C CABLE. INDOOR CHARGING ONLY.**
