

PRODUCT SPECIFICATIONS

SISER EASY PUFF

Siser Easy Puff is the new and improved Puff HTV that expands when heat-pressed onto garments, revealing a puffy / puff paint texture. Add dimension to your designs and create an exciting and fun 3D effect.

Suitable for cotton, polyester or poly/cotton blends, not treated or dye sublimated.

* Cut shiny side up (carrier sheet up), mirror your image

Application instructions

- Pre-heat your garment for 3 seconds.
- Place your cut design onto your fabric, cover (baking paper is recommended)
- Press using a heat press at 138C for 8 - 10 seconds, firm pressure
- Peel carrier hot

Washing

Wait at least 24 hours after application before washing your garment

Machine wash cold with a mild detergent

Wash inside out

Fabric Softener is not recommended

- * We do not recommend using a Teflon cover sheet or Teflon pillow during your application
- * Easy Puff is designed to withstand one heat application only. Repeated pressing will flatten the 'puff' effect
- * It is not recommended to apply this product with a home iron
- * A small test application is strongly advised
